Time Rescue Time Travel University Book One:

Time Rescue Tedric Garrison, Donna Garrison, 2015-01-20 Peter Archer knew there had to be rules about being a Time Traveler 1 No new concepts that made sense 2 No personal gain he understood that 3 But do not fall in love That might be kind of hard considering he was already in love with his partner before he ever met her Saving Virginia Dare influencing Samuel Morris or learning about Catherine Beacher may all be in a day's work but when students of the Time Travel University start dying on every mission it doesn't take long to realize something is wrong Changing the course of history is easy if you know what you're looking for but when reality keeps changing every time you return things start to get complicated Of course they are only freshman it's not like the fate of the whole world hangs on their shoulders does it Students of the Time Travel University must discover who they are before they can take their place in history Overcoming personal obstacles death rape guilt handicaps and other fears is the first step It's not an accident they were chosen to come to this school It was not an accident that Peter and Faith were teamed together Training to fulfill your own destiny is a gift that should not be taken lightly You are here for a reason and so are they If you want to see what it takes to overcome some of life's most difficult challenges you NEED to follow Peter and Faith in this journey of discovery *The Author Training*

Manual Nina Amir, 2014-03-18 If you want to write a book that's going to sell to both publishers and readers you need to know how to produce a marketable work and help it become successful It starts the moment you have an idea That's when you begin thinking about the first elements of the business plan that will make your project the best it can be The reality is that you don't want to spend time and energy writing a book that will never get read The way to avoid that is to create a business plan for your book and evaluate it and yourself through the same lens that an agent or acquisitions editor would The Author Training Manual will show you how to get more creative and start looking at your work with those high standards in mind Whether you're writing fiction or non-fiction or intend to publish traditionally or self-publish author Nina Amir will teach you how to conduct an effective competitive analysis for your work and do a better job at delivering the goods to readers than similar books that are already on the shelf Packed with step-by-step instructions idea evaluations sample business plans editor and agent commentaries and much more The Author Training Manual provides the information you need to transform from aspiring writer to career author **Strange Divisions and Alien Territories** Keith

Brooke, 2012-02-10 *Strange Divisions and Alien Territories* explores the sub-genres of science fiction from the perspectives of a range of top SF authors Combining a critical viewpoint with the exploration of the challenges and opportunities facing authors working in the field contributors include Michael Swanwick Catherine Asaro and Paul di Filippo *Paratexts* James Gunn, 2013-04-18 In the mid 1980s Easton Press began publishing a series of leather bound collector editions called Masterpieces of Science Fiction and Masterpieces of Fantasy which featured some of the most important works in these genres James Gunn was commissioned to write introductions to these works which allowed him to pay tribute to many

authors who inspired and influenced his own work In *Paratexts* Introductions to Science Fiction and Fantasy Gunn has collected the most significant essays produced for the Easton series along with prefaces he wrote for reprints of his own novels Cited here are some of the most significant works of 19th and 20th century science fiction and fantasy such as *The Island of Dr Moreau* 1984 *Stranger in a Strange Land* *A Clockwork Orange* *Speaker for the Dead* *The Postman* *Do Androids Dream of Electric Sheep* *The Hitchhiker's Guide to the Universe* *The Dead Zone* *The Mists of Avalon* *Dragon's Eye* *Nine Princes in Amber* *Blue Mars* *The Last Unicorn* and *The Lord of the Rings* Drawing upon Gunn's lifetime of work in the field these introductions include analyses of the individual works and the fields in which they were written Gunn also briefly discusses each novel's significance in the science fiction canon Collected here for the first time these prefaces and introductions provide readers with insight into more than seventy novels making *Paratexts* a must read for science fiction and fantasy aficionados

The Continuum Encyclopedia of Children's Literature Bernice E. Cullinan, Diane Goetz Person, 2005-01-01 Provides articles covering children's literature from around the world as well as biographical and critical reviews of authors including Avi C. S. Lewis J. K. Rowling and Anno Mitsumasa

Connie Willis's Science Fiction Carissa Turner Smith, 2022-10-31 In spite of Connie Willis's numerous science fiction awards and her groundbreaking history as a woman in the field there is a surprising dearth of critical publication surrounding her work Taking *Doomsday Book* as its cue this collection argues that Connie Willis's most famous novel along with the rest of her oeuvre performs science fiction's task of cognitive estrangement by highlighting our human inability to read the times correctly and yet also affirming the ethical imperative to attempt to truly observe and record our temporal location Willis's fiction emphasizes that doomsdays happen every day and they risk being forgotten by some even as their trauma repeats for others However disasters also have the potential to upend accepted knowledge and transform the social order for the better and this collection considers the ways that Willis pairs comic and tragic modes to reflect these uncertainties

The Origins of the Contemporary Global Order Carl J. Strikwerda, 2025-01-17 This book offers a new interpretation of the origins of the contemporary global order the set of institutions and international practices created by the USA and its allies after the Second World War Previous interpretations have argued that the USA played the predominant role in creating the global order to fight the Cold War against the Soviet Union The author argues that a broader perspective is necessary to understand both the origins of the global order and its ongoing tensions up until today a perspective that includes the legacy of both world wars the role of imperialism and the alternative strategy of globally oriented economic blocs The cooperative tradition in the founding of the global order and the contributions of nations besides the USA provides useful insights for those interested in the current global order and the challenges it faces from Russia and China
