supplementary tutoring widely known as shadow education because of the way that it mimics mainstream schooling has greatly expanded worldwide. It consumes considerable family resources, provides employment for tutors, occupies the time of students and has a backwash on regular schools. Although such tutoring has become a major industry and a daily activity for students, tutors and families, the research literature has been slow to catch up with the phenomenon. The topic is in some respects difficult to research precisely because it is shadowy. Contours are indistinct and the actors may hesitate to share their experiences and perspectives.

Presenting methodological lessons from diverse cultures, the book contains chapters from both high income and low income settings in Asia, Caribbean, Europe and the Middle East. Separately and together, the chapters present valuable insights into the design and conduct of research. The book will assist both consumers and producers of research. Consumers will become better judges of the strengths, weaknesses and orientations of literature on the theme, and producers will gain insights for design of instruments, collection of data and interpretation of findings.

The editors: Mark Bray is UNESCO Chair Professor in Comparative Education at the University of Hong Kong; Ora Kwo is an Associate Professor in the Comparative Education Research Centre at the University of Hong Kong; Boris Joki is a Scientific Associate in the Centre for Educational Research and Development at the Institute for Social Research in Zagreb, Croatia.

Autumn statement 2011 Great Britain. Treasury, 2011-11-29. The Autumn Statement sets out the Government's actions in three areas: protecting the economy, building a stronger economy for the future and fairness. This document details plans for public spending in 2015-16 and 2016-17, raising state pension age to 67 between 2026 and 2028, setting public sector pay awards at an average of one per cent for each of the two years after current pay freeze ends, 21 billion credit easing measures to support smaller and mid-sized businesses. To build a stronger economy, the Government is funding 6.3 billion of additional infrastructure spending. 1 billion of private sector investment in regulated industries will be supported by Government guarantee and the Regional Growth Fund for England will be increased by 1 billion. Other measures on credit easing and enterprise include up to 20 billion National Loan guarantee Scheme, investigation of alternatives to tribunal hearings, possible changes to collective redundancy processes, two proposals for radical reform of employment law, a Seed Enterprise Investment Scheme offering 50 per cent income tax relief on investments. Education will see an extra 600 million to fund 100 more free schools and 600 million for local authorities with the greatest demographic pressures. Housing support includes a new build indemnity scheme to increase the supply of affordable mortgage finance and a revised right to buy scheme. Fairness measures cover fuel duty, rail fares, a Youth Contract worth 940 million and extending the offer of 15 hours free education and care a week for disadvantaged two-year-olds.

Coile, 2021-03-05 This ninth phase of the International Social Security project which studies the experiences of twelve developed countries examines the effects of public pension reform on employment at older ages In the past two decades men's labor force participation at older ages has increased reversing a long term pattern of decline participation rates for older women have increased dramatically as well While better health more education and changes in labor supply behavior of married couples may have affected this trend these factors alone cannot explain the magnitude of the employment increase or its large variation across countries The studies in this volume explore how financial incentives to work at older ages have evolved as a result of public pension reforms since 1980 and how these changes have affected retirement behavior Utilizing a common template to analyze the developments across countries the findings suggest that social security reforms have strengthened the financial returns to working at older ages and that these enhanced financial incentives have contributed to the rise in late life employment

The Role of Local Authorities in Health Issues Great Britain: Parliament: House of Commons: Communities and Local Government Committee, 2013-03-27 From 1 April 2013 local government will have a responsibility to improve the health and wellbeing of local people Councils are well placed to make the most of a move away from a medical model of health based on clinical treatment to a social model based on health promotion protection and disease prevention Central to the new system will be Health and Wellbeing Boards whose members include councillors GPs directors of local services and community groups They will need to focus on health promotion among all age groups With few powers and no budget to commission services themselves they will have to display leadership build relationships and use their influence locally to turn their health and wellbeing strategies into reality Health and Wellbeing Boards will be part of a complex new structure and it is still unclear who will be in charge locally in the event of a health emergency New arrangements for screening and immunisation services lack a local dimension These services along with public health services for children up to five years old and childhood immunisation services could be devolved to public health staff within local government under Directors of Public Health The Committee points to weaknesses in the grant formula and the Health Premium and calls on the Government to provide local authorities with community budgets to direct resources at people and places rather than organisations The Government also needs to address concerns about local authority and NHS access to each other's data **Research**
