*Bigfoot* Joshua Blu Buhs,2009-08-01 Last August two men in rural Georgia announced that they had killed Bigfoot The claim drew instant feverish attention leading to more than 1 000 news stories worldwide despite the fact that nearly

everyone knew it was a hoax Though Bigfoot may not exist there s no denying Bigfoot mania With Bigfoot Joshua Blu Buhs traces the wild and wooly story of America s favorite homegrown monster He begins with nineteenth century accounts of wildmen roaming the forests of America treks to the Himalayas to reckon with the Abominable Snowman then takes us to northern California in 1958 when reports of a hairy hominid loping through remote woodlands marked Bigfoot s emergence as a modern marvel Buhs delves deeply into the trove of lore and misinformation that has sprung up around Bigfoot in the ensuing half century We meet charlatans pseudo scientists and dedicated hunters of the beast and with Buhs as our guide the focus is always less on evaluating their claims than on understanding why Bigfoot has inspired all this drama and devotion in the first place What does our fascination with this monster say about our modern relationship to wilderness individuality class consumerism and the media Writing with a scientist s skepticism but an enthusiast s deep engagement Buhs invests the story of Bigfoot with the detail and power of a novel offering the definitive take on this elusive beast **Official Gazette of**
