Tiwanaku A City Lost In Time:

Tiwanaku J. Allen, 2014-11-20 About 12 miles 20 km from the shores of Lake Titicaca lie the ruins of what was once the site of the greatest city in South America Thought by some to date back to 15 000 BC when it might have been on the shore of the lake it is now considered by radio carbon dating to have begun around 1500 BC and flourished from around 300 to 1000 AD when it probably came to an end due to climate change a worsening climate meant the area was no longer able to support the industrious agricultural population One of the most fascinating aspects of the city is the famous Sun Gate carved with icons said to relate to a calendar To the side of the gate is a wall which contained 11 pillars and these are the actual calendar marking the time of the year according to the position where the sun set every night and dividing the year into 20 fortnights of 18 days or 10 months of 36 days which also meshed every three years with a lunar calendar of 40 sidereal months making it one of the most sophisticated yet less known calendars in the world This magnificent city was completely destroyed by the Spanish Conquistadores of the sixteenth century and the little that remained was further smashed up and used as ballast for the construction of the nearby railway *Tiwanaku a City Lost in Time* is an attempt to gather the remaining photographic evidence of the city from the time when it was first documented by Europeans and piece together the actual workings of the calendar and the system of cubits that was used in the construction of the monuments such as the Akapana pyramid built so that one side marked a year of 360 days and the other the actual year of 365 1/4 days whilst some monuments were designed in Egyptian cubits others in Sumerian cubits and finally we discover the length of the Tiwanaku cubit itself [The Disinformation Guide to Ancient Aliens, Lost Civilizations, Astonishing Archaeology & Hidden History](#) The Disinformation Guide, 2013-04-01 This compendium of ancient mysteries and controversial knowledge is an excellent briefing on the genre and its complexities Fortean Times Where did modern civilization begin What lies beneath the waves Do myths describe interstellar impact How d they lift that stone Was the Ark of the Covenant a mechanical device Were there survivors of an Atlantean catastrophe Who really discovered the New World Hidden history continues to fascinate an ever wider audience In this massive compendium editor Preston Peet brings together an all star cast of contributors to question established wisdom about the history of the world and its civilizations Peet and anthology contributors guide us through exciting archeological adventures and treasure hunts ancient mysteries lost or rediscovered technologies and assorted Fortean using serious scientific studies and reports scholarly research and some plain old fringe material as what is considered fringe today is often hard science tomorrow Contributors include Graham Hancock Fingerprints of the Gods and Underworld David Hatcher Childress Lost Cities and Civilizations series Colin Wilson From Atlantis to the Sphinx Michael Cremo Forbidden Archeology William Corliss Ancient Infrastructures Robert Schoch Voyages of the Pyramid Builders John Anthony West Serpent in the Sky Michael Arbuthnot Team Atlantis Erich Von Daniken Chariots of the Gods and many more

results of extensive excavations in order to provide a narrative covering three thousand years In doing so he addresses and explains features of Tiwanakan culture that have long puzzled scholars the origins of their uniquely massive architecture the nature of their sophisticated hydraulically engineered agriculture their obsession with decapitation and the display of severed heads and not least the reasons for their mysterious and sudden decline at the end of the tenth century The book is illustrated throughout with photographs maps and drawings and is fully referenced and indexed Although written to appeal to the nonspecialist and assuming no prior knowledge of the subject this is a book of scholarly import and likely to become the standard work for many years
