Explorations in Urban Design Matthew Carmona,2017-05-15 Whilst recognising that distinctly different traditions exist within the study and practice of urban design this book advances an interdisciplinary and innovative approach which is of direct importance to understanding the urban forms conditions practices and processes It enthuses and inspires users who are grappling with urban design research problems but who need inspiration to move from idea to methodological approach Through the work of 32 urban researchers from the arts sciences and social sciences it

demonstrates a wide range of problems and approaches and shows how the diverse range of complementary approaches can come together to provide a holistic understanding to the design of cities While each of the contributors presents a particular approach to researching the field sometimes focusing centrally on particular research methodologies others cutting across methods or focusing on theory all include discussion of actual research projects to illustrate their application to real world problems This book will be valuable to everyone from the informed undergraduate student about to embark on their first dissertation to PhD students and seasoned researchers immersed in methodological and conceptual complexity and wishing to compare available and appropriate methodological paths

Urban Planning and Real Estate Development John Ratcliffe, Michael Stubbs, Miles Keeping, 2021-07-29 This fourth edition of *Urban Planning and Real Estate Development* guides readers through the procedural and practical aspects of developing land from the point of view of both planner and developer The twin processes of planning and property development are inextricably linked it is not possible to carry out a development strategy without an understanding of the planning process and equally planners need to know how real estate developers do their job The planning system is explained from the increasing emphasis on spatial planning at a national local and neighbourhood level down to the detailed perspective of the development management process and the specialist requirements of historic buildings and conservation areas At the same time the authors explain the entire development process from inception through appraisal valuation and financing to completion Sustainability and corporate social responsibility and their impact on planning and development are covered in detail and the future consequences of the COVID 19 pandemic are explored in new opening and closing chapters setting the text in a global context Written by a team of authors with many years of academic professional and research experience and illustrated throughout with practical case studies and follow up resources this book is an invaluable textbook for real estate and planning students and helps to meet the requirements of the RICS and RTPI Assessment of Professional Competence
