Five Simple Steps to Improve Your Website's Search Engine Ranking P. Bensky, 2007 Over the past few years search engine optimization has developed into something of a science as webmasters and business owners try to figure out how to trick the internet search engines into listing THEIR sites near the top of the search results list A number of big pricey books have been written on the subject But it really is not that complicated We ve boiled it down to FIVE SIMPLE STEPS that just about anybody can follow It s so simple that this book is fewer than 50 pages long You won t get bogged down with

boring technical descriptions and geek speak this book is written in easy to read plain English with plenty of examples and clear descriptions of technical terms where they are absolutely necessary But I m not a web designer You don t need to be You just need to be able to create simple web pages I don t have a budget for paid ads This book is not about paying for sponsored links adwords or any other kind of paid advertising The technique we describe will cost you nothing other than the price of this book and some of your time
