Something New Under the Sun J. R. McNeill,2001-04-17 One of those rare books that s both sweeping and specific scholarly and readable What makes the book stand out is its wealth of historical detail Elizabeth Kolbert The New Yorker The history of the twentieth century is most often told through its world wars the rise and fall of communism or its economic upheavals In his startling book J R McNeill gives us our first general account of what may prove to be the most significant dimension of the twentieth century its environmental history To a degree unprecedented in human history we have refashioned the earth s air water and soil and the biosphere of which we are a part Based on exhaustive research McNeill s story a compelling blend of anecdotes data and shrewd analysis never preaches it is our definitive account This is a

volume in The Global Century Series general editor Paul Kennedy *Toward a Theology of Scientific Endeavour* Professor Christopher B Kaiser, 2013-05-28 Foundations of science are specific conditions of the cosmos of human intelligence of cultural beliefs and of technological structures that make the pursuit of modern science possible Each of the four foundations of scientific endeavour can be studied as a topic on its own The concurrent study of all four together reveals several tensions and interconnections among them that point the way to a greater unification of faith and science This book explores four foundations of scientific endeavour and investigates some of the paradoxes each of them raises Kaiser shows that the resolution of these paradoxes inevitably leads us into theological discourse and raises new challenges for theological endeavour In order to address these challenges Kaiser draws on the wider resources of the Judeo Christian tradition and argues for a refocusing of contemporary theology from the perspective of natural science **UPSC GEO Scientist**

Wiener,2006 This classic rhetoric reader handbook offers a complete course in writing in the rhetorical modes in one comprehensive volume **Resources in Education** ,1989-11 The Global Thermohaline Paleocirculation Elena Ivanova,2009-10-03 Originally published in Russian in 2006 this is the first English translation of this important book on paleoceanography and paleoclimatology Its initial publication was followed by a surge of interest in this subject prompting the author to revise and translate her original work In the book she successfully summarizes her own research over recent years and compiles an overview of up to date

knowledge on past ocean circulation The key topics include Modern thermohaline circulation and main stages of its development during the Cenozoic Methods and proxies of paleoceanographic reconstruction Variability of the meridional overturning circulation and paleoceanographic events in the North Atlantic during the last climatic cycle Influence of the global thermohaline circulation on paleoceanographic events in the Eurasian Arctic seas the Northern Indian Ocean and the South China Sea The role of the thermohaline circulation in global teleconnections in the Antarctic Eurasian Arctic northern Pacific and low latitudes Indo Pacific Comprehensive investigation of hundreds of international publications and her own results convinced the author that the global thermohaline circulation controls the remote teleconnections on millennial scale and partly on centennial scale while short term climate signals are mainly transferred by the atmosphere This revised and extended English edition provides the latest unpublished data new figures and modeling results The extensive reference list contains more than 100 publications and 140 new references Fractals and Dynamic Systems in Geoscience Tom G.

Blenkinsop,Jörn H. Kruhl,Miriam Kupkova,2012-12-06 Concepts and methods of fractal geometry penetrate various branches of human knowledge to an increasing degree This tendency is particularly striking in the geosciences because many processes occurring in and on the Earth result in time dependences and spatial patterns that have a fractal character The contributions in this volume arose from the 3rd International Symposium on Fractals and Dynamic Systems in Geosciences held at Stara Lesna Slovakia in June 1997 The volume contains new ideas and applications of fractal geometry in such diverse branches of geoscience as engineering geology the physics of the lithosphere including faulting seismicity and fluid flow and climate behavior **English Vocabulary Book B2-C1 Upper-Intermediate & Advanced levels** Elshad
