Task Force 58 Rod Macdonald, 2023-01-04 The new breed of American fast aircraft carriers could make thirty three knots and each carried almost 100 strike aircraft Brought together as Task Force 58 also known as the Fast Carrier Task Force this awesome armada at times comprised more than 100 ships carrying more than 100 000 men afloat By 1945 more than 1 000 combat aircraft fighters dive and torpedo bombers could be launched in under an hour The fast carriers were a revolution in naval warfare it was a time when naval power moved away from the big guns of the battleship to air power projected at sea Battleships were eventually subordinated to supporting and protecting the fast carriers of which at its peak Task Force 58 had a total of seventeen This book covers the birth of naval aviation the appearance of the first modern carriers in the 1920s through to the famous surprise six carrier _Kido Butai_ Japanese raid against Pearl Harbor on 8 December 1941 and then the early US successes of 1942 at the Battles of the Coral Sea and Midway The fast carriers allowed America in late 1942 and early 1943 to finally move from bitter defence against the Japanese expansionist onslaught to mounting her own offensive to retake the Pacific Task Force 58 swept west and north from the Solomon Islands to the Gilbert and Marshall Islands neutralising Truk in Micronesia and Palau in the Caroline islands before the vital Mariana Islands operations the Battle of Saipan the first battle of the Philippine Sea and the Great Marianas Turkey Shoot The strikes by Task Force 58 took Allied forces across the Pacific to the controversial Battle of Leyte Gulf and to Iwo Jima and Okinawa Task Force 58 had opened the door to the Japanese home islands themselves allowing US bombers to finally get close enough to launch the devastating nuclear bombing raids on Hiroshima and Nagasaki Task Force 58 participated in virtually all the US Navy s major battles in the Pacific theatre during the last two years of the war Having spent many years investigating naval shipwrecks across the Pacific many the result of the devastating effectiveness of Task Force 58 diver and shipwreck author Rod Macdonald has created the most detailed account to date of the fast carrier strike force the force that brought Japan to its knees and brought the Second World War to its crashing conclusion

Innovating Victory Vincent O'Hara, Leonard R Heinz, 2022-04-15 *Innovating Victory* Naval Technology in Three Wars studies how the world s navies incorporated new technologies into their ships their practices and their doctrine It does this by examining six core technologies fundamental to twentieth century naval warfare including new platforms submarines and aircraft new

weapons torpedoes and mines and new tools radar and radio Each chapter considers the state of a subject technology when it was first used in war and what navies expected of it It then looks at the way navies discovered and developed the technology s best use in many cases overcoming disappointed expectations It considers how a new technology threatened its opponents not to mention its users and how those threats were managed Innovating Victory shows that the use of technology is more than introducing and mastering a new weapon or system Differences in national resources force mixtures priorities perceptions and missions forced nations to approach the problems presented by new technologies in different ways Navies that specialized in specific technologies often held advantages over enemies in some areas but found themselves disadvantaged in others Vincent P O Hara and Leonard R Heinz present new perspectives and explore the process of technological introduction and innovation in a way that is relevant to today s navies which face challenges and questions even greater than those of 1904 1914 and 1939 *Japanese Military Strategy in the Pacific War* James B Wood,2023-06-14 In this provocative history James B Wood challenges the received wisdom that Japan s defeat in the Pacific was historically inevitable He argues instead that it was only when the Japanese military prematurely abandoned its original sound strategic plan to secure the resources Japan needed and establish a viable defensible perimeter for the Empire that the Allies were able to regain the initiative and lock Japanese forces into a war of attrition they were not prepared to fight The book persuasively shows how the Japanese army and navy had both the opportunity and the capability to have fought a different and more successful war in the Pacific that could have influenced the course and outcome of World War II It is therefore a study both of Japanese defeat and of what was needed to achieve a potential Japanese victory or at the very least to avoid total ruin Wood s argument does not depend on signal individual historical events or dramatic accidents Instead it examines how familiar events could have b *The Pacific War* Douglas Ford,2012-02-23 A rich and broadranging account of the Asia Pacific campaigns of WWII **World War II at Sea** Spencer C.
