Repair Revolution John Wackman, Elizabeth Knight, 2020-10-27 Every year millions of people throw away countless items because they don't know how to fix them. Some products are manufactured in a way that makes it hard if not impossible for people to repair them themselves. This throwaway lifestyle depletes Earth's resources and adds to overflowing landfills. Now there's a better way. Repair Revolution chronicles the rise of Repair Cafés, Fixit Clinics, and other volunteer-run organizations devoted to helping consumers repair their beloved but broken items for free. Repair Revolution explores the philosophy and wisdom of repairing as well as the Right to Repair movement. It provides inspiration and instructions for starting, staffing, and sustaining your own repair events. Fixperts share their favorite online repair resources as well as tips and step-by-step instructions for how to make your own repairs. Ultimately, Repair Revolution is about more than fixing material objects; in an age of overconsumption and planned obsolescence, doing it yourself repair is a way of caring for our lives, our communities, and our planet.

The Home Fronts of Iowa, 1939-1945 Lisa L. Ossian, 2009-10-16 As Americans geared up for World War II, each state responded according to its economy and circumstances as well as the disposition of its citizens. This book considers the war years in Iowa by looking at activity on different home fronts and analyzing the resilience of Iowans in answering the call to support the war effort. With its location in the center of the country, far from potentially threatened coasts, Iowa was also the center of American isolationism, historically Republican and resistant to involvement in another European war. Yet Iowans were quick to step up, and Lisa Ossian draws on historical archives as well as on artifacts of popular culture to record the rhetoric and emotion of their support. Ossian shows how Iowans quickly moved from skepticism to overwhelming enthusiasm for the war and answered the call on four fronts: farms, factories, communities, and kitchens. Iowa's farmers faced labor and machinery shortages yet produced record amounts of crops and animals, even at the expense of valuable topsoil. Ordnance plants turned out bombs and machine gun bullets. Meanwhile, communities supported war bonds and scrap drives while housewives coped with rationing, raised Victory gardens, and turned to home canning. The

Home Fronts of Iowa 1939 1945 depicts real people and their concerns showing the price paid in physical and mental exhaustion and notes the heavy toll exacted on Iowa's sons who fell in battle Ossian also considers the relevance of such issues as race class and gender particularly the role of women on the home front and the recruitment of both women and blacks for factory work taking into account a prevalent suspicion of ethnic groups by the state's largely homogeneous population The fact that Iowans could become loyal citizen soldiers forming an Industrial and Defense Commission even before Pearl Harbor speaks not only to the patriotism of these sturdy midwesterners but also to the overall resilience of Americans In unraveling how Iowans could so overwhelmingly support the war Ossian digs deep into history to show us the power of emotion and to help us better understand why World War II is consistently remembered as the Good War
