Compilation* ,1981 **State Leadership and Innovation in Disability Employment** United States. Congress. Senate. Committee on Health, Education, Labor, and Pensions,2014 **Navigation by Judgment** Dan Honig,2018 Foreign aid organizations collectively spend hundreds of billions of dollars annually with mixed results Part of the problem in these endeavors lies in their execution When should foreign aid organizations empower actors on the front lines of delivery to guide aid interventions and when should distant headquarters lead In Navigation by Judgment Dan Honig argues that high quality implementation of foreign aid programs often requires contextual information that cannot be seen by those in distant headquarters Tight controls and a focus on reaching pre set measurable targets often prevent front line workers from using skill local knowledge and creativity to solve problems in ways that maximize the impact of foreign aid Drawing on a novel database of over 14 000 discrete development projects across nine aid agencies and eight paired case studies of development projects Honig concludes that aid agencies will often benefit from giving field agents the authority to use their own judgments to guide aid delivery This navigation by judgment is particularly valuable when environments are unpredictable and when accomplishing an aid program s goals is hard to accurately measure Highlighting a crucial obstacle for effective global aid Navigation by Judgment shows that the management of aid projects matters for aid effectiveness

Environmental Public Policy Making Exposed Cynthia H. Stahl,Alan J. Cimorelli,2019-11-16 This book exposes the

barriers to inclusive and effective public policy making which are the current decision making paradigm and commonly held ideas that reduce public policy problems to scientific and technical ones Through both environmental policy and other decision making examples readers are shown the commonalities of all decision making Solution oriented practitioners and stakeholders will find this book filling a conceptual and methodological gap in existing policy literature and practice The authors deftly guide readers from post normal science wicked problems and uncertainty concepts to a conceptually grounded practical implementation of a new approach the open solution approach The Multi criteria Integrated Resource Assessment MIRA is described as the first generation methodology that fulfills the expectations for the inclusive transparent and learning based open solutions approach MIRA is a holistic package of concepts methods and analytical tools that is designed to assess Decision Uncertainty the combined uncertainties that include data problem formulation expert judgments and stakeholder opinions Introduction of the Requisite Steps the common steps found in all decision making provides the yardstick for evaluating a variety of decision making processes decision tools and commonly found indices such as the Dow Jones Industrial Average or the Newsweek Green Ranking of corporations The use of anecdotes policy stories and case examples makes this a very readable and practical book for citizens and experts With this book readers are prepared to critically evaluate these common indices for their personal use as well as challenge policy processes as a stakeholder For policy practitioners this guidebook will become a rubric to ensure an effective public policy making process and to critically evaluate decision support tools
