Higher Education Accreditation Paul L. Gaston,2023-07-03 Is the accreditation system broken as claimed by successive Secretaries of Education and some recent reports This book addresses this question head on asking whether accreditation is indeed in need of radical reform and whether the agencies authority should be curtailed or whether in fact the changes now underway that accrediting agencies contend ensure rigorous and consistent standards and degrees that are a reliable gauge of student attainment are moving the academy and the nation in the right direction In a sweeping and ambitious book Paul Gaston deploys his knowledge and experience as a peer reviewer for three regional accrediting agencies a former board member and chair of the Association of Specialized and Professional Accreditors and his involvement in the early stages of the Council for Higher Education Accreditation to go beyond the polemics to explore whether a strategy that builds on the emerging values and good practices can achieve the substantive and positive improvements the public is demanding As an introduction for readers new to the debate he provides a brief overview of the development of accreditation its terminology and structure describing how it currently works and what it has achieved and offers insight into the proliferation of the missions of accreditation as well as the multiplicity of stakeholders with an interest in its outcomes to question whether the mandate of accreditation should as some contend be expanded or particular missions reassigned or abandoned This established he undertakes a dispassionate analysis of the arguments and recommendations of critics and supporters of the current direction of accreditation to identify common ground and explore constructive ways forward paying specific attention to current and potential reforms of the three sectors of higher education accreditation the seven regional accrediting associations the national accreditors and programmatic or specialized accreditation The book concludes by outlining a comprehensive approach to reform His proposal would preserve practices that already work well while advancing

important changes that can be incrementally implemented The result would be a higher education accreditation structure more cost effective more efficient more transparent and accountable and more responsive to institutional and public needs

Ethics in Pharmacy Practice: A Practical Guide Dennis M. Sullivan, Douglas C. Anderson, Justin W. Cole, 2021-06-16 This textbook offers a unique and accessible approach to ethical decision making for practicing pharmacists and student pharmacists Unlike other texts it gives clear guidance based on the fundamental principles of moral philosophy explaining them in simple language and illustrating them with abundant clinical examples and case studies The strength of this text is in its emphasis on normative ethics and critical thinking and that there is truly a best answer in the vast majority of cases no matter how complex The authors place high trust in a pharmacist's moral judgment This teaches the reader how to think based on ethical principles not necessarily what to think This means navigating between the two extremes of overly theoretical and excessively prescriptive The cogent framework given in this text uses the language of competing duties identifying the moral principles at stake that create duties for the pharmacist This is the balancing act of normative ethics and of deciding which duties should prevail in a given clinical situation This work presents a clear cut pathway for resolving ethical dilemmas encountered by pharmacists based on foundational principles and critical thinking Presents a clear cut pathway for resolving the ethical dilemmas encountered by pharmacists based on foundational principles and critical thinking Jon E Sprague RPh PhD Director of Science and Research for the Ohio Attorney General

Genetic Resources as Natural Information Manuel Ruiz Muller, 2015-09-16 Demonstrating the shortcomings of current policy and legal approaches to access and benefit sharing ABS in the Convention on Biological Diversity CBD this book recognizes that genetic resources are widely distributed across countries and that bilateral contracts undermine fairness and equity The book offers a practical and feasible regulatory alternative to ensure the goal of fairness and equity is effectively and efficiently met Through a legal analysis that also

incorporates historic economic and sociological perspectives the book argues that genetic resources are not tangible resources but information It shows that the existing preference for bilateralism and contracts reflects resistance on the part of many of the stakeholders involved in the CBD process to recognize them as such ABS issues respond very well to the economics of information yet as the author explains these have been either sidelined or overlooked At a time when the Nagoya Protocol on ABS has renewed interest in feasible policy options the author provides a constructive and provocative critique The institutional policy and regulatory framework constitute bounded openness under which fairness and equity emerge
