

The background of the entire cover is an impressionist painting of a rainy street scene. In the foreground, a woman in a dark dress and white apron holds a large red umbrella. Other figures with umbrellas are visible in the background, and the street is wet and reflective. The overall style is reminiscent of J.M.W. Turner's work.

Washington Square by Henry James Joseph Cowley, 2016-01-20 Henry James was born in the United States in New York City on April 15 1843 and is considered an American writer though he spent most of his life in England and a year before his death in London on February 28 1916 became a British citizen He is regarded as one of the key literary figures of the 19th century writing mainly narrative fiction He influenced many other writers most notably Edith Wharton James was the son of Henry James Sr a well known intellectual of his day and the brother of William James Henry is known especially for the novels in which he portrays Americans encountering Europeans His style of writing often verbose and indirect especially in his later years can make him difficult to read Often too he writes from the point of view of the characters within a tale exploring issues related to consciousness and perception James contributed significantly to literary criticism especially in his later years when his works were republished with extensive introductions by James He insisted that writers be allowed the greatest freedom in their writing and that narrative fiction be true to life giving readers a view of life that is recognizable He felt that the only way to judge whether a novel is good or bad is by whether the author is good or bad His imaginative use of

point of view interior monologue and narrators who were not necessarily reliable brought depth and interest to his fiction The Aspern Papers is one of his most notable short novels along with The Turn of the Screw In addition to fiction he published articles books of travel autobiography biography criticism and plays Among his masterpieces are Daisy Miller 1879 The Portrait of a Lady 1881 The Bostonians 1886 What Maisie Knew 1897 The Wings of the Dove 1902 and The Golden Bowl 1916 available in this series Classics Condensed by Cowley *Washington Square Annotated* Henry James,2021-02-14

HENRY JAMES **Washington Square** Henry James, 2016-01-13 I During a portion of the first half of the present century and more particularly during the latter part of it there flourished and practised in the city of New York a physician who enjoyed perhaps an exceptional share of the consideration which in the United States has always been bestowed upon distinguished members of the medical profession This profession in America has constantly been held in honour and more successfully than elsewhere has put forward a claim to the epithet of liberal In a country in which to play a social part you must either earn your income or make believe that you earn it the healing art has appeared in a high degree to combine two recognised sources of credit It belongs to the realm of the practical which in the United States is a great recommendation and it is touched by the light of science a merit appreciated in a community in which the love of knowledge has not always been accompanied by leisure and opportunity It was an element in Dr Sloper's reputation that his learning and his skill were very evenly balanced he was what you might call a scholarly doctor and yet there was nothing abstract in his remedies he always ordered you to take something Though he was felt to be extremely thorough he was not uncomfortably theoretic and if he sometimes explained matters rather more minutely than might seem of use to the patient he never went so far like some practitioners one has heard of as to trust to the explanation alone but always left behind him an inscrutable prescription There were some doctors that left the prescription without offering any explanation at all and he did not belong to that class either which was after all the most vulgar
