Friends Robert Shapiro, 1998-02-01 Humans creators in training have a purpose and destiny so heartwarming and profoundly glorious that it is almost unbelievable from our present dimensional perspective. Humans are great light beings from beyond this creation, gaining experience in dense physicality by slowing down the creative process in order to feel the results and consequences of their decisions and actions. This truth about the great human genetic experiment of the Explorer Race and the mechanics of creation is being revealed for the first time by Zoosh and his friends as humanity begins to awaken to its true nature. Zoosh and a great assortment of beings who have never spoken to the physical plane before, from particles to All That Is, speak vibrantly through superchannel Robert Shapiro. Each personality has its own knowing perception and expertise as it shares its history, its present focus, and the awesome truth about humanity's mission. The books read like adventure stories as we follow the clues from this creation we live in out to the Council of Creators and beyond. As we explore the greater reality beyond our planet, our galaxy, our dimension, our creation, we meet prototypes, designers, shapemakers, creators, creators of creators, and friends of our Creator who explain their roles in this creation and their experiences before and beyond this creation. As our awareness expands about the way creation works, our awareness of who we are expands, and we realize that a part of ourselves is in that vast creation and that we are much greater and more magnificent than even science fiction had led us to believe. Join us in the adventure of discovery. It's mind stretching. **Who's who in the West**, 2001

Public Roads, 2003 **Popular Science**, 1994-01 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better. U.S. Camera and Travel, 1957
