[The Colonization and Decolonization of Africa](#) Charles River Editors, 2019-12-16 Includes pictures Includes a bibliography for further reading The modern history of Africa was until very recently written on behalf of the indigenous races by the white man who had forcefully entered the continent during a particularly hubristic and dynamic phase of European history In 1884 Prince Otto von Bismark the German chancellor brought the plenipotentiaries of all major powers of Europe together to deal with Africa s colonization in such a manner as to avoid provocation of war This event known as the Berlin Conference of 1884 1885 galvanized a phenomenon that came to be known as the Scramble for Africa The conference established two fundamental rules for European seizure of Africa The first of these was that no recognition of annexation would be granted without evidence of a practical occupation and the second that a practical occupation would be deemed unlawful without a formal appeal for protection made on behalf of a territory by its leader a plea that must be committed to paper in the form of a legal treaty This began a rush spearheaded mainly by European commercial interests in the form of Chartered Companies to penetrate the African interior and woo its leadership with guns trinkets and alcohol and having thus obtained their marks or seals upon spurious treaties begin establishing boundaries of future European African colonies The ease with which this was achieved was due to the fact that at that point traditional African leadership was disunited and the people had just staggered back from centuries of concussion inflicted by the slave trade Thus to usurp authority to intimidate an already

broken society and to play one leader against the other was a diplomatic task so childishly simple the matter was wrapped up for the most part in less than a decade During World War II President Roosevelt pictured a very different post war world than his British counterpart Winston Churchill When he and Churchill met at what came to be known as the Atlantic Conference Churchill's pleas for U S manpower and aid were accepted but only under clear conditions If the United States was to come to the aid of Britain it would be for the purpose of defeating the Germans and the Japanese and not to support the insupportable institutions of empire Britain and by extension France and Portugal the only remaining major European shareholders in foreign empire would have to commit to decolonization as a basic prerequisite of substantial U S assistance Meanwhile the British were not the only European power to take note of this development The French too were a major imperial power with a great deal to lose from such a monumental change but their view of the global chessboard was somewhat different France lay under German occupation and an armistice had been signed on behalf of the French nation by Marshall Philippe P tain commencing the era of Vichy France In London meanwhile the firebrand French General Charles de Gaulle urged a continuation of the resistance believing the French mainland to be only a small part of the picture France was much more than just France De Gaulle established the Free French movement in Britain based on the loyalty and the ongoing Free French control of a majority of her overseas territories The Free French movement and the Free French army based themselves in Francophone Africa The saga of the Free French movement would impact the war in both North Africa and Europe but most specifically it would serve to radically redefine the French view of itself and her relationship with her overseas territories Most importantly it would set the tone for a style of decolonization very different from the British This book examines the turbulent history of imperialism across Africa and the consequences it has had European Imperialism and the Partition of Africa Ernest Francis Penrose,1975
