Ice and Fire

Stephen Osborne, 1998 Ice and Fire is a collection of nonfiction narratives from award winning writer Stephen Osborne who retains an abiding sense that the places and the people he encounters are still to be discovered Negotiating the Trans Canada Highway near Moncton during a whiteout visiting Timothy Eaton's grave in Toronto leaving offerings of tobacco at a Nez Perce battleground drinking with his Japanese mentor in a revolving bar in Vancouver while debating Buddhism vs class struggle for Osborne all of these are occasions to conjure our time and our place Ice and fire are extremes of a Canadian North from which several of these dispatches are written But Osborne's special insight is that Kamloops New Glasgow and even Toronto are as unknowable as Pangnirtung We live in a country that can claim the world's only souvenir police force

and whose analogue is a department store a country that believes itself to be part of a New World even though people have lived here for ten thousand years Smart funny moving and full of wonder and surprise the dispatches in Ice and Fire illuminate a very old world striving to make itself new

Born of Ice and Fire Graham Shields,2024-01-05 An exploration of how the Cryogenian Period when our planet was covered in ice for millions of years created today s remarkable biodiversity More than half a billion years ago our world was completely covered by glaciers a Snowball Earth that persisted for millions of years Incredibly this unimaginable cold led to the remarkable diversification of life on earth known as the Cambrian explosion With a geologist s eye and a knack for storytelling Graham Shields explores when and how such inhospitable conditions enabled animals to evolve radiate and diversify into our earliest ancestors This journey navigates the wild swings between hot and cold climates oxygenation and asphyxiation biological radiations and extinctions asking how such instability relates to grander forces that brought our planet to its modern state Shields guides readers through evidence found in the Australian outback Mongolia Scotland and other locales revealing how geologists can trace glaciation the atmosphere oceans mountain building and more through the earth s rocks providing a comprehensive theory of how life evolved and diversified

Medievalism in A Song of Ice and Fire and Game of Thrones Shiloh Carroll,2018 Game of Thrones is famously inspired by the Middle Ages but how authentic is the world it presents This volume offers different angles to the question One of the biggest attractions of George R R Martin s high fantasy series A Song of Ice and Fire and by extension its HBO television adaptation Game of Thrones is its claim to historical realism The author the directors and producers of the adaptation and indeed the fans of the books and show all lay claim to Westeros its setting as representative of an authentic medieval world But how true are these claims Is it possible to faithfully represent a time so far removed from our own in time and culture And what does an authentic medieval fantasy world look like This book explores Martin s and HBO s approaches to and beliefs about the Middle Ages and how those beliefs fall into traditional medievalist and fantastic literary patterns Examining both books and programme from a range of critical approaches medievalism theory gender theory queer theory postcolonial theory and race theory Dr Carroll analyzes how the drive for historical realism affects the books and show s treatment of men women people of colour sexuality and imperialism as well as how the author and showrunners discuss these effects outside the texts themselves SHILOH CARROLL teaches in the writing center at Tennessee State University
