Handbook of Hazards and Disaster Risk Reduction Ben Wisner,JC Gaillard,Ilan Kelman,2012-03-29 The Handbook provides a comprehensive statement and reference point for hazard and disaster research policy making and practice in an international and multi disciplinary context It offers critical reviews and appraisals of current state of the art and future development of conceptual theoretical and practical approaches as well as empirical knowledge and available tools Organized into five inter related sections this Handbook contains sixty five contributions from leading scholars Section one situates hazards and disasters in their broad political cultural economic and environmental context Section two contains treatments of potentially damaging natural events phenomena organized by major earth system Section three critically reviews progress in responding to disasters including warning relief and recovery Section four addresses mitigation of potential loss and prevention of disasters under two sub headings governance advocacy and self help and communication and participation Section five ends with a concluding chapter by the editors The engaging international contributions reflect upon the politics and policy of how we think about and practice applied hazard research and disaster risk reduction This Handbook provides a wealth of interdisciplinary information and will appeal to students and practitioners interested in Geography Environment Studies and Development Studies International Case Studies in the Management of Disasters Babu George,Qamar-ud-Din Mahar,2020-11-30 Showcasing internationally sourced case studies on disaster management International Case Studies in the Management of Disasters presents a diverse range of case studies on how disasters both natural and manmade are being managed globally **Routledge Handbook of Climate Change and Society** Constance Lever-Tracy,2010-07-12 As the time scales of natural change accelerate and converge with those of society Routledge Handbook of Climate Change and Society takes the reader into largely uncharted territory in its exploration of anthropogenic climate change Current material is used to highlight the global impact of this issue and the necessity for multidisciplinary and global social science research and teaching to address the problem The book is multidisciplinary and worldwide in scope with contributors spanning specialisms including agro forestry economics environmentalism ethics human geography international relations law politics psychology sociology and theology Their global knowledge is reflected in the content of the text which encompasses chapters on American European and Chinese policies case studies of responses to disasters and of the new technological and lifestyle alternatives that are being adopted and the negotiations leading up to the Copenhagen conference alongside a preface assessing its outcomes Starting with an initial analysis by a leading climatologist key issues discussed in the text include recent findings of natural scientists social causation and vulnerability media and public recognition or scepticism and the merits and difficulties of actions seeking to mitigate and adapt This accessible volume utilizes a wealth of case studies explains technical terms and minimises the use of acronyms associated with the subject

making it an essential text for advanced undergraduates postgraduate students and researchers in the social sciences

Hunger, disaster, hope: rethinking humanitarian action in Africa , Deconstructing Images of the Global South Through Media Representations and Communication Endong, Floribert Patrick C.,2019-12-06 The human condition has continued to improve phenomenally in today s world with the development of technology and medicine This includes developing countries in areas such as Africa Asia and South America Despite the emergence of economy education and infrastructure in these regions media outlets continue to forego their advancements in favor of the negativities that plague these states such as poverty hunger and corruption There is a need to research international media portrayals of the less developed world to ascertain the myth that these areas are still struggling Deconstructing Images of the Global South Through Media Representations and Communication provides emerging research exploring the theoretical and practical aspects of how global media analyzes developing countries Featuring coverage on a broad range of topics such as cultural affirmation online platforms and audience perception this book is ideally designed for communications specialists journalists broadcasters newscasters conflict photographers media practitioners policymakers international relation experts column writers editors students politicians government officials researchers and academicians seeking current research on the world s perception of developing countries through media coverage

To Fix Or To Heal Joseph E. Davis,Ana Marta Gonzalez,2016-02-26 Do doctors fix patients Or do they heal them For all of modern medicine s many successes discontent with the quality of patient care has combined with a host of new developments from aging populations to the resurgence of infectious diseases which challenge medicine s overreliance on narrowly mechanistic and technical methods of explanation and intervention or fixing patients The need for a better balance for more humane healing rationales and practices that attend to the social and environmental aspects of health and illness and the experiencing person is more urgent than ever Yet in public health and bioethics the fields best positioned to offer countervailing values and orientations the dominant approaches largely extend and reinforce the reductionism and individualism of biomedicine The collected essays in To Fix or To Heal do more than document the persistence of reductionist approaches and the attendant extension of medicalization to more and more aspects of our lives The contributors also shed valuable light on why reductionism has persisted and why more holistic models incorporating social and environmental factors have gained so little traction The contributors examine the moral appeal of reductionism the larger rationalist dream of technological mastery the growing valuation of health and the enshrining of individual responsibility as the seemingly non coercive means of intervention and control This paradigm challenging volume advances new lines of criticism of our dominant medical regime even while proposing ways of bringing medical practice bioethics and public health more closely into line with their original goals Precisely because of the centrality of the biomedical approach to our society the contributors argue challenging the reductionist model and its ever widening effects is perhaps the best way to press for a much needed renewal of our ethical and political discourse

Routledge

Handbook of Human Security Mary Martin, Taylor Owen, 2013-11-07 This Handbook will serve as a standard reference guide to the subject of human security which has grown greatly in importance over the past twenty years Human security has been part of academic and policy discourses since it was first promoted by the UNDP in its 1994 Human Development Report Filling a clear gap in the current literature this volume brings together some of the key scholars and policy makers who have contributed to its emergence as a mainstream concept including Nobel prize winner Amartya Sen and Sadako Ogata who jointly chaired the 2001 Commission on Human Security Drawing upon a range of theoretical and empirical analyses the Handbook provides examples of the use of human security in policies as diverse as disaster management arms control and counter terrorism and in different geographic and institutional settings from Asia to Africa and the UN It also raises important questions about how the concept might be adapted and operationalised in future Over the course of the book the authors draw on three key aspects of human security thinking Theoretical issues to do with defining human security as a specific discourse Human security from a policy and institutional perspective and how it is operationalised in different policy and geographic contexts Case studies and empirical work Featuring some of the leading scholars in the field the Routledge Handbook of Human Security will be essential reading for all students of human security critical security conflict and development peace and conflict studies and of great interest to students of international security and IR in general

The Humanitarian Response Index (HRI) 2009 DARA (Development Assistance Research Associates), 2016-01-08 Over 350 million people are affected each year by disaster and conflict The international community is often unable to respond effectively to these crises This report provides an independent examination of donor performance with the aim of improving the effectiveness of aid and promoting greater accountability of donors

Environmental Change, Forced Displacement and International Law Isabel M. Borges, 2018-12-07 This book explores the increasing concern over the extent to which those suffering from forced cross border displacement as a result of environmental change are protected under international human rights law Formally they are not entitled to admission or stay in a third state country a situation that has been identified as an international legal protection gap The book seeks to provide answers to two basic questions whether and to what extent existing international law protects cross border environmental displacement and whether and how existing formalized regional complementary protection standards can interpretively solidify and conceptualize protection for cross border environmental displacement The discussion outlines that the protection of the human person is not only an ex post facto obligation of states but must be increasingly seen as an ex ante one The analysis further suggests that the European Union regionally orientated protection regime can help states to consolidate an evolving protection paradigm of proactive and reactive measures being erected at the international level It can also narrow the identified legal protection gaps In so doing it helps states to reconceptualise protection as a holistic and dynamic enterprise This book will be of great interest to academics in law political science and human rights policy makers and civil society organisations both at national and

international level **Environmental Hazards and Disasters** Bimal Kanti Paul, 2011-11-01 Environmental Hazards and Disasters Contexts Perspectives and Management focuses on manifested threats to humans and their welfare as a result of natural disasters The book uses an integrative approach to address socio cultural political and physical components of the disaster process Human and social vulnerability as well as risk to environmental hazards are explored within the comprehensive context of diverse natural hazards and disasters In addition to scientific explanations of disastrous occurrences people and governments of hazard prone countries often have their own interpretations for why natural disasters occur In such interpretations they often either blame others in order to conceal their inability to protect themselves or they blame themselves attributing the events to either real or imagined misdeeds The book contains a chapter devoted to the neglected topic of such reactions and explanations Includes chapters on key topics such as the application of GIS in hazard studies resiliency disasters and poverty climate change and sustainability and development This book is designed as a primary text for an interdisciplinary course on hazards for upper level undergraduate and Graduate students Although not targeted for an introductory hazards course students in such a course may find it very useful as well Additionally emergency managers planners and both public and private organizations involved in disaster response and mitigation could benefit from this book along with hazard researchers It not only includes traditional and popular hazard topics e g disaster cycles disaster relief and risk and vulnerability it also includes neglected topics such as the positive impacts of disasters disaster myths and different accounts of disasters and disasters and gender *Global HIV/AIDS Politics, Policy, and Activism* Raymond A. Smith, 2013-10-28 An international team of specialists in politics policy and activism provide an indispensable guide to the persistent challenges and emerging issues posed by the global HIV AIDS epidemic now in its fourth decade The HIV AIDS epidemic is at a critical turning point Compelling new findings herald the potential to eventually grind the epidemic to a halt through a combination of expanded treatment coverage and new biomedical approaches to prevention At the same time the severe global economic downturns have negatively affected wealthy donor nations that have provided the funds and technical support for programs in the developing world It is against this backdrop that this landmark three volume set was developed It provides a broad overview of the critical political issues surrounding HIV AIDS inspects key areas of policy and policymaking and spotlights the most important forms of activism and community mobilization The volumes reflect an eclectic and wide ranging set of issues written by an international team comprising dozens of authors from nations including the United States the United Kingdom Ghana South Africa Brazil Cambodia Norway and Qatar The international contributors represent a variety of disciplines and bring with them a range of styles and methodological approaches appropriate to their specific topics and disciplines An important addition to academic and public libraries this expansive work will benefit students and other readers interested in politics policymaking public health activism and community mobilization both in the United States and globally *Disaster Public Health and Older People* Emily Ying Yang Chan, 2019-08-23 Disaster Public

Health and Older People introduces professionals students and fieldworkers to the science and art of promoting health and well being among older people in the context of humanitarian emergencies with a particular focus on low and middle income country settings Older people face specific vulnerabilities in physical mental and social well being during disasters They are likely to experience socio economic marginalisation isolation inaccessible information and a lack of relevant post emergency support services Meanwhile although older people can also significantly contribute to disaster preparedness response and recovery their capacities are often under utilised Drawing on a range of global case studies this book provides readers with a theoretical underpinning while suggesting actions at the individual community and national levels to reduce the health risks to older people posed by the increasing frequency and intensity of disaster in particular those resulting from natural hazards Topics covered range from the health impact of disasters on older people and response to their post disaster health needs to disaster preparedness disease prevention healthy ageing global policy developments and the contributions of older people in disaster contexts This book draws on lessons learnt from previous disasters and targets students and professionals working in disaster medicine disaster public health humanitarian studies gerontology and geriatrics

Social Vulnerability to Disasters Deborah S.K. Thomas,Brenda D. Phillips,Alice Fothergill,Lynn Blinn-Pike,2009-08-10 In recent years the world has watched in horror as tsunamis earthquakes and hurricanes have wrought havoc across countries and continents While these events have different circumstances they share a common factor the overwhelming majority of victims are women children elderly disadvantaged or disabled Evidence gathered from these events

How Do We Help? Patrick Develtere,Huib Huyse,Jan Van Ongevalle,2012 This book draws up the balance sheet of 50 years of development aid and provides an overview of all relevant players of opportunities and obstacles of successes and failures

Economics Of Natural Disasters Suman Kumari Sharma,Euston Quah,2018-12-12 Unlike existing books on the topic that cover more on non economic aspects of natural disasters this book covers economic aspects of natural disasters viz damage assessment risk management and resilience The book contains several case studies and covers some of the major natural disasters in different countries most notably the recent Nepal earthquake tsunami in Fukushima the Indian Ocean earthquake and tsunami floods in Thailand the typhoon Haiyan and the eruptions of Mount Merapi It also suggests avenues for better public policies to tackle economics of natural disasters

Behavioral Health Response to Disasters Julie Framingham,Martell L. Teasley,2012-04-23 Disasters can cause long term disruptions to the routines of individuals and communities placing survivors at risk of developing serious mental health and substance abuse problems Disaster behavioral health services provide emotional support help normalize stress reactions assess recovery options and encourage healthy coping behaviors They al

Humanitarian Response Index 2008 DARA (Development Assistance Research Associates),2016-01-18 The purpose of this annual report is to develop an index of good humanitarian donorship that will measure donors effectiveness against their commitment to the Principles and Good Practise of Humanitarian Donorship The index is intended to help the

international donor community to better understand its strengths and weaknesses in order to improve the efficiency and quality of its donor activities and initiatives The index is also expected to raise awareness about the increasingly important role of humanitarian action and associated good practices beyond its current core constituencies We believe that this report offers significant potential to improve the quality of humanitarian aid benefiting those most affected by both man made and natural disasters
