The Atlantic in Global History Jorge Canizares-Esguerra,Erik R Seeman,2017-09-05 The Atlantic in Global History is a collection of original essays by leading authors that both introduce the main themes of Atlantic history and expand the category of the Atlantic chronologically spatially and methodologically Moving away from the nation state focused model of Atlantic history this book emphasizes the comparisons among national experiences of the Atlantic Meanwhile by extending beyond the early modern period and into the nineteenth and twentieth centuries it presents the continued analytical value of the Atlantic paradigm Each chapter explores the events that formed the nations and cultures of the Atlantic region and examines the Atlantic s relationship with non Atlantic communities This second edition is updated with a new introduction which includes a section dedicated to developments in the field since the publication of the previous edition and a new guide for instructors with suggestions for classroom use The volume s broad global and chronological coverage makes it an ideal book for students and lecturers of Atlantic History

Software, Infrastructure, Labor Ned Rossiter,2016-06-23 Infrastructure makes worlds Software coordinates labor Logistics governs movement These pillars of contemporary capitalism correspond with the materiality of digital communication systems on a planetary scale Ned Rossiter theorizes the force of logistical media to discern how subjectivity and labor economy and society are tied to the logistical imaginary of seamless interoperability Contingency haunts logistical power Technologies of capture are prone to infrastructural breakdown sabotage and failure Strategies of evasion anonymity and disruption unsettle regimes of calculation and containment We live in a computational age where media again disappear into the background as infrastructure Software Infrastructure Labor intercuts transdisciplinary theoretical reflection with empirical encounters

ranging from the Cold War legacy of cybernetics shipping ports in China and Greece the territoriality of data centers video game design and scrap metal economies in the e waste industry Rossiter argues that infrastructural ruins serve as resources for the collective design of blueprints and prototypes demanded of radical politics today **Oswaal Karnataka SSLC**
