Confucianism as a World Religion Anna Sun, 2013-04-21 Is Confucianism a religion If so why do most Chinese think it isn't From ancient Confucian temples to nineteenth century archives to the testimony of people interviewed by the author throughout China over a period of more than a decade this book traces the birth and growth of the idea of Confucianism as a world religion The book begins at Oxford in the late nineteenth century when Friedrich Max Müller and James Legge classified Confucianism as a world religion in the new discourse of world religions and the emerging discipline of comparative religion Anna Sun shows how that

decisive moment continues to influence the understanding of Confucianism in the contemporary world not only in the West but also in China where the politics of Confucianism has become important to the present regime in a time of transition. Contested histories of Confucianism are vital signs of social and political change. Sun also examines the revival of Confucianism in contemporary China and the social significance of the ritual practice of Confucian temples. While the Chinese government turns to Confucianism to justify its political agenda, Confucian activists have started a movement to turn Confucianism into a religion. Confucianism as a world religion might have begun as a scholarly construction but are we witnessing its transformation into a social and political reality? With historical analysis, extensive research and thoughtful reflection, Confucianism as a World Religion will engage all those interested in religion and global politics at the beginning of the Chinese century.

Religion and the Christian Faith Hendrik Kraemer, 2003-06. A rich and profound contribution to the debate on the position of modern Christianity opened up. Kraemer's *The Christian Message in a Non-Christian World*. In *Religion and the Christian Faith*, he deals with many of the criticisms of his position and offers an apologia at once luminous and massive of the Christian religion as the revelation of God to Man and the faith for all mankind. There is a decisive Christian finality about Kraemer's writing and his book is a significant contribution to the sharp discipline of faith and action under which the universal Christian community lives. All the way through his formidably marshalled arguments run the undertones of Christian involvement in a real world, a world which by his astonishing grasp of philosophy, Biblical theology and the claims of religion and religions, the Author brings alive to the reader. The reading of this formative book with its strenuous demands on the reader's intelligence and Christian understanding is a rewarding experience. Its significance for the Christian Church throughout the world is obvious but it is also a monumental witness to the Christian religion for all those who ask not only for a faith once delivered but a faith to believe in their own day and generation.

Annual Review of the Sociology of Religion. Volume 7 (2016) Roberto Cipriani, Franco Garelli, 2016-06-27. Recent studies show that atheism is increasing. The reasons for this development have not as yet been examined thoroughly. Many atheists continue to be residual groups in surveys on religiosity making it difficult to examine who they are and why they have chosen to be atheists. Moreover, they are minority groups in most countries; former Soviet bloc countries are left out of discussion; many do not identify with any organized groups of atheists or agnostics. Atheist groups and ideologies then represent a wide range of attitudes, behaviour and ways of acting towards religion. The lack of a clear definition of what being atheist or an unbeliever means today invites us to study the issue in greater depth. This volume represents a first attempt at understanding and scrutinizing atheism. Thanks to all contributors, it provides both a global perspective and specific insights into specific cases.

Freedom of Religion and Religious Diversity Md Jahid Hossain Bhuiyan, Ann Black, 2024-08-23. Today pluralism is increasingly the norm and can be seen as a permanent characteristic of modernity. As seen in world events, religion has not become irrelevant but more diverse, giving rise to a complex web of religion and belief, minorities together with intra-plural

majorities Nations seek ways to implement the ideal of freedom of religion but as this book shows whether East or West in the global North or the South there is no simple formalism for accommodating religious diversity Different faith communities have competing needs and demands for the same social space with tensions inevitably arising This book highlights responses from liberal democracies which enshrine secularism into their constitutions to other constitutions where religion and ethnic identity are enshrined to prioritise their ethno religious majority Western and Asian countries encounter different obstacles and challenges With analysis from 19 international scholars the book explores different obstacles and responses to accommodation of religious minorities in a range of jurisdictions In a globalised world it will be invaluable for comparative legal scholars for law and religion scholars researchers and students and decision makers e g governments non governmental organisations and for those who seek to better understand the challenges of our time
