also frequently criticised marginalised and downplayed existing in a constant state of tension between notions of normality and exceptionality routine and disruption the everyday and the extraordinary The author argues that sport played an important yet hitherto neglected role in maintaining the morale of the British people and providing a reassuring sense of familiarity at a time of mass anxiety and threat Through the conflict sport became increasingly regarded as characteristic of Britishness a symbol of the ordinary everyday lives in defence of which the war was being fought Utilised to support the welfare of war workers the entertainment of service personnel at home and abroad and the character formation of schoolchildren and young citizens sport permeated wartime culture contributing to new ways in which the British imagined the past present and future Using a wide range of personal and public records from diary writing and club minute books to government archives this book breaks new ground in both the history of the British home front and the history of sport

World War I in Central and Eastern Europe Judith Devlin, John Paul Newman, Maria Falina, 2018-07-30 In the English language World War I has largely been analysed and understood through the lens of the Western Front This book addresses this imbalance by examining the war in Eastern and Central Europe The historiography of the war in the West has increasingly focused on the experience of ordinary soldiers and civilians the relationships between them and the impact of war at the time and subsequently This book takes up these themes and engaging with the approaches and conclusions of historians of the Western front examines wartime experiences and the memory of war in the East Analysing soldiers letters and diaries to discover the nature and impact of displacement and refugee status on memory this volume offers a basis for comparison between experiences in these two areas It also provides material for intra regional comparisons that are still missing from the current research Was the war in the East wholly other Were soldiers in this region as alienated as those in the West Did they see themselves as citizens and was there continuity between their pre war or civilian and military identities And if in the Eastern context these identities were fundamentally challenged was it the experience of war itself or its consequences in the shape of imprisonment and displacement and changing borders that mattered most How did soldiers and citizens in this region experience and react to the traumas and upheavals of war and with what consequences for the post war era In seeking to answer these questions and others this volume significantly adds to our understanding of World War I as experienced in Central and Eastern Europe
