**The Political Dialogue of Nature and Grace** Caitlin Smith Gilson,2017-03-23 The discourse between nature and grace finds its linguistic and existential podium in the political condition of human beings As Caitlin Smith Gilson shows it is in this arena that the perennial territorial struggle of faith and reason God and man man and state take place and it is here that the understanding of the personal as political as well as the political as personal finds its meaning And it is here too that the divine finds or is refused a home Any discussion of post secular society has its origins in this political dialogue between nature and grace the resolution of which might determine not only a future post secular society but one in which awe is re united to affection solidarity and fraternity Smith Gilson questions whether the idea of pure nature antecedently disregards the fact that grace enters existence and that this accomplishes a conversion in the metaphysical existential region of man's action and being This conversion alters how man acts as an affective moral intellectual social political and spiritual being State of nature theories transformed yet retained in the broader metaphysical and existential implications of the Hegelian Weltgeist are shown to be indebted to the ideological restrictedness of pure nature *natura pura* as providing the foremost adversary to any meaningful type of divine presence within the polis as well as inhibiting the phenomenological facticity of man as an open nature

*Preaching to Convert* John Fletcher, 2013-11-13 *Preaching to Convert* offers an intriguing new perspective on the outreach strategies of U S evangelicals Author John Fletcher frames these activities from door to door proselytizing to the spirited sermons of superstar televangelists as examples of activist performance broadly defined here as acts performed before an audience in the hopes of changing hearts and minds Most writing about activist performance has focused on left progressive causes events and actors and if evangelicals have appeared at all they often appear as one dimensional forces of ignorance or bigotry against which brave left leaning activists must fight *Preaching to Convert* argues against such a constricted view of activism and for a more nuanced understanding of U S evangelicalism as a movement defined by its desire to win converts and spread the gospel In other words evangelicals are activist performers par excellence The book positions evangelicals as a diverse complicated group confronting the loss of conservative Christianity's default status in twenty first century U S culture In the face of an increasingly secular age evangelicals have been reassessing models of outreach In acts like handing out Bible tracts to strangers on the street or going door to door with a Bible in hand in elaborately staged horror themed morality plays or multi million dollar creationist discovery centers in megachurch services beamed to dozens of satellite campuses and in controversial ex gay ministries striving to return gays and lesbians to the straight and narrow evangelicals are redefining what it means to be deeply committed in a pluralist world The book's engaging style and careful argumentation make it accessible and appealing to scholars and students across a range of fields
