Handbook of Gender and Mobilities Valerie Preston, Sara McLafferty, Monika Maciejewska, Brenda Yeoh, 2024-12-09 This important Handbook provides a critical overview of the complex links between gender mobility and immobility highlighting the production and politics of gendered mobilities and the importance of gender perspectives This title contains one or more Open Access chapters

Health Science Books, 1876-1982, 1982 **WHEN DOCTORS GET IT WRONG** Dr Nicholas Rae, 2019-09-17 There are plenty of books on clinical errors some written for doctors and others for lawyers This book is for patients It describes the principles of medicine and then explains what people can expect their general practitioner to do by way of diagnosis and treatment It removes some of the mystery surrounding medical practice and explains how accidents can occur This is almost a small medical textbook but one that cuts through the technicalities to help people understand what has happened The examples of what can go wrong in medical practice are actual UK general practitioner cases where lawyers requested a medical opinion in cases of alleged negligence The examples give a guide to patients who are considering a complaint about a medical practitioner They may also provide an explanation for patients and relatives to show that even if things have turned out badly the doctor may still have done all that was possible

The New Truth About Menopause Carol Landau, Michele G. Cyr, 2003-11-01 Nearly every month brings alarming new headlines about menopause and hormone therapy leaving millions of women who were taking those hormones or planning to take them unsure of what to do next Even their doctors don't always know After all for years the medical establishment had been saying that hormones protected women against heart attacks and Alzheimer's disease Now two distinguished leaders in the field have stepped forward to help women make sense of the latest findings Drs Landau and Cyr offer frank expert advice for women who don't know whether to stop or start hormone therapy are at risk for heart disease osteoporosis or breast cancer suffer from disabling hot

flashes or mood swings want the facts on safe effective alternatives to hormone treatment From evaluating new research to assessing their risk factors and goals this book helps women go beyond the headlines to take charge of their own well being

Ebony ,1977-11 EBONY is the flagship magazine of Johnson Publishing Founded in 1945 by John H Johnson it still maintains the highest global circulation of any African American focused magazine *Maternal and Infant Nutrition Education Materials, January 1981 - October 1988* Holly Berry Irving,1989 Quick Bibliography Series ,1976

Traditional Midwives Robbie Davis-Floyd,Betty-Anne Daviss,Inayat Ali,2025-10-30 *Traditional Midwives Cross Cultural Perspectives* is a pioneering work that delves deeply into the worlds of traditional midwives shedding light on their practices roles and the immense cultural value they hold within their respective communities wherever they are still allowed to practice This book not only champions the significance of traditional midwifery but also critiques the often misguided global and national initiatives that seek to move all childbirths into biomedical facilities These facilities as clearly shown by the chapters in this book are frequently underequipped and under staffed often providing substandard care that can often be obstetrically violent and abusive The push to move all births into such facilities disregards the quality of care that traditional midwives provide and undermines the trust and rapport they have built within their respective communities This global push is particularly detrimental to rural women because biomedical facilities are often located far away from such communities This geographical distance makes access to maternity care difficult if not impossible especially for rural women Furthermore almost none of the biomedical practitioners are willing to live and practice in such remote areas thereby leaving thousands of especially rural women without any maternity care provision Other critical points that this book addresses are the failures of the governmental efforts to train traditional midwives in higher level skills As the chapters in this book also clearly demonstrate the essence of traditional midwifery lies in experiential learning where skills are passed down through observation practice and mentoring By bringing to light the multiple challenges that are currently being faced by traditional midwives and the shortcomings of biomedical facilities this book serves as a crucial reminder of the need for culturally safe and sensitive community based maternity care that traditional midwives are fully able to provide It is an essential read for policymakers healthcare professionals students and for anyone who is interested in traditional midwives and their practices
