Slave At The Auction The Initiation English Edition:

Mastering Slavery Jennifer B. Fleischner, 1996-07-01 In Mastering Slavery Fleischner draws upon a range of disciplines including psychoanalysis African American studies literary theory social history and gender studies to analyze how the slave narratives in their engagement with one another and with white women's antislavery fiction yield a far more amplified and complicated notion of familial dynamics and identity than they have generally been thought to reveal Her study exposes the impact of the entangled relations among master mistress slave adults and slave children on the sense of identity of individual slave narrators She explores the ways in which out of the social psychological biological and literary crossings and disruptions slavery engendered these autobiographers created mixed dynamic narrative selves , **American Sculpture in the Metropolitan Museum of Art: A catalogue of works by artists born before 1865** Metropolitan Museum of Art (New York, N.Y.), Laretta Dimmick, Donna J. Hassler, 1999 Volume One This volume catalogues the distinguished and comprehensive collection of approximately 400 works of American sculpture by artists born before 1865 This publication includes an introduction on the history of the collection's formation particularly in the context of the Museum's early years of acquisitions and discusses the outstanding personalities involved Metropolitan Museum of Art website **Beyond Ethnicity** Werner Sollors, 1987-10-29 This highly original study examines the role of ethnicity in American literature and what that literature has said and continues to say about our remarkably diverse culture Sollors focuses particularly on the conflict between descent and consent between the concern for one's racial ethnic and familial heritage and the conflicting desire to choose one's own destiny regardless of that heritage Grave and hilarious tender and merciless The book performs a public service Quentin Anderson **Faeries, Bears, and Leathermen** Peter Hennen, 2008-11-15 Over time male homosexuality and effeminacy have become indelibly associated sometimes even synonymous In Faeries Bears and Leathermen Peter Hennen contends that this stigma of effeminacy exerts a powerful influence on gay subcultures Through a comparative ethnographic analysis of three communities Hennen explores the surprising ways that conventional masculinity is being collectively challenged subverted or perpetuated in contemporary gay male culture Hennen's colorful study focuses on a trio of groups the Radical Faeries who parody effeminacy by playfully embracing it donning prom dresses and glitter the Bears who strive to appear like regular guys and celebrate their larger hairier bodies and the Leathermen who emulate hypermasculine biker culture simultaneously paying homage to and undermining notions of manliness Along with a historical analysis of the association between effeminacy and homosexuality Hennen examines how this connection affects the groups sexual practices Ultimately he argues while all three groups adopt innovative approaches to gender issues and sexual pleasure masculine norms continue to constrain members of each community **A Lily Among the Thorns** Miguel A. De La Torre, 2007-07-20 A new way for Christians to think about sexuality Author Miguel De La Torre a well respected ethicist and professor known for his innovative readings of Christian doctrine rejects both the liberal and conservative prejudices about

sex He instead develops an ethic that is liberative yet grounded soundly in the Bible a sexuality that celebrates God's gift of great sex by fostering intimacy vulnerability and openness between loving partners In *A Lily Among the Thorns* De La Torre examines the Bible current events history and our culture at large to show how and why racism sexism and classism have distorted Christianity's central teachings about sexuality The author shows how the church's traditionally negative attitudes toward sex in general and toward women people of color and gays in particular have made it difficult if not impossible to create a biblically based and just sexual ethic But when the Bible is read from the viewpoint of those who have been marginalized in our society preconceived notions about Christianity and sex get turned on their heads Taking on hot button topics such as pornography homosexuality prostitution and celibacy the author examines how reading from the margins provides a liberating approach to dealing with issues of sexuality

The Complexion of Race Roxann

Wheeler, 2010-08-03 In the 1723 *Journal of a Voyage up the Gambia* an English narrator describes the native translators vital to the expedition's success as being Black as Coal Such a description of dark skin color was not unusual for eighteenth century Britons but neither was the statement that followed here through Custom being Christians they account themselves

White Men The Complexion of Race asks how such categories would have been possible when and how such statements came to seem illogical and how our understanding of the eighteenth century has been distorted by the imposition of nineteenth and twentieth century notions of race on an earlier period Wheeler traces the emergence of skin color as a predominant marker of identity in British thought and juxtaposes the Enlightenment's scientific speculation on the biology of race with accounts in travel literature fiction and other documents that remain grounded in different models of human variety As a consequence of a burgeoning empire in the second half of the eighteenth century English writers were increasingly preoccupied with differentiating the British nation from its imperial outposts by naming traits that set off the rulers from the ruled although race was one of these traits it was by no means the distinguishing one In the fiction of the time non European characters could still be redeemed by baptism or conversion and the British nation could embrace its mixed race progeny In Wheeler's eighteenth century we see the coexistence of two systems of racialization and to detect a moment when an older order based on the division between Christian and heathen gives way to a new one based on the assertion of difference between black and white

Black Litigants in the Antebellum American South Kimberly M. Welch, 2018-01-02 In the antebellum Natchez district in the heart of slave country black people sued white people in all white courtrooms They sued to enforce the terms of their contracts recover unpaid debts recuperate back wages and claim damages for assault They sued in conflicts over property and personal status And they often won Based on new research conducted in courthouse basements and storage sheds in rural Mississippi and Louisiana Kimberly Welch draws on over 1 000 examples of free and enslaved black litigants who used the courts to protect their interests and reconfigure their place in a tense society To understand their success Welch argues that we must understand the language that they used the language of property in particular to make their claims recognizable and persuasive to others and to link their status as owner to the ideal of a free autonomous citizen In telling their stories Welch reveals a previously unknown world of black legal activity one that is consequential for understanding the long history of race rights and civic inclusion in America

Authenticity William Aspray, James W. Cortada, 2022-09-28 This book studies authenticity which is a kind of truth to self through the study of heritage tourism When a heritage site is inauthentic it leads to misinformation Tourism scholars have been studying authenticity for about 50 years and this book draws upon the theories and approaches of tourism studies to understand better misinformation which has

become a major topic of study since the US presidential elections in 2016 The book includes a discussion of common sense and academic notions of authenticity surveys a half century of scholarship on authenticity and provides three case studies of heritage tourism sites Lindsborg KS known as Little Sweden USA Colonial Williamsburg in Virginia and the Gettysburg battlefield in Pennsylvania **Schoolbook Nation** Joseph Moreau, 2004-11-23 DIVAn unbiased examination of the century and a half long culture wars fought in the pages of our country's history texts div **Dream Dancers □ Vol Two □ 2018** Spencer Jourdain, 2016 In writing vol 2 Journey to the Promised Land Jourdain discovered that like oral histories and stories the black Negro spirituals country blues and worksongs sung by Tommy McLennon Blind Willie McTell Mississippi John Hurt Huddie Ledbetter and others lent much deeper understanding of the history changing post Civil War era *Whitman Noir* Ivy Wilson, 2014-05-01 Walt Whitman's now famous maxim about containing the multitudes has often been understood as a metaphor for the democratizing impulses of the young American nation But did these impulses extend across the color line Early in his career especially in the manuscripts leading up to the first edition of *Leaves of Grass* the poet espoused a rather progressive outlook on race relations within the United States However as time passed he steered away from issues of race and blackness altogether These changing depictions and representations of African Americans in the poetic space of *Leaves of Grass* and Whitman's other writings complicate his attempts to fully contain all of America's subject citizens within the national imaginary As alluring as containing the multitudes might prove to be African American poets and writers have been equally vexed by and attracted to Whitman's acknowledgment of the promise and contradictions of the United States and their place within it *Whitman Noir Black America and the Good Gray Poet* explores the meaning of blacks and blackness in Whitman's imagination and equally significant also illuminates the aura of Whitman in African American letters from Langston Hughes to June Jordan Margaret Walker to Yusef Komunyakaa The essays which feature academic scholars and poets alike address questions of literary history the textual interplay between author and narrator and race and poetic influence The volume as a whole reveals the mutual engagement with a matrix of shared ideas contradictions and languages to expose how Whitman influenced African American literary production as well as how African American Studies brings to bear new questions and concerns for evaluating Whitman *Scarring the Black Body* Carol E. Henderson, 2002 Scarring and the act of scarring are recurrent images in African American literature In *Scarring the Black Body* Carol E Henderson analyzes the cultural and historical implications of scarring in a number of African American texts that feature the trope of the scar including works by Sherley Anne Williams Toni Morrison Ann Petry Ralph Ellison and Richard Wright The first part of *Scarring the Black Body* The Call traces the process by which African bodies were Americanized through the practice of branding Henderson incorporates various materials from advertisements for the return of runaways to slave narratives to examine the cultural practice of writing the body She also considers ways in which writers and social activists including Frederick Douglass Olaudah Equiano Harriet Tubman and Sojourner Truth developed a call centered on the body's scars to

demand that people of African descent be given equal rights and protection under the law In the second part of the book *The Response* Henderson goes on to show that more recent representations of the conditions of slavery by authors such as Williams and Morrison extend the efforts of their predecessors by developing creative responses to those calls centered around the African American body and its scars Henderson explores Williams's reinvention of the whip scarred body in her novel *Dessa Rose* and provides a close analysis of Morrison's use of scar imagery in *Beloved* She also devotes a chapter to Petry's *The Street* and concludes with an investigation of the wounded black male psyche in the works of Ralph Ellison and Richard Wright *Scarring the Black Body* demonstrates that the creative acts of these authors bind together that which has been wounded both literally and figuratively Those who hear the voices of the ancestors are urged to connect to that part of themselves wherein wounds of the past carry a self knowledge that can alter the experiences of the present In this way the disfigured body as a cultural metaphor and social invention can come to terms with its own humanity and embodiment

Men of Maryland George Freeman Bragg, 1925 History and biographical sketches of Maryland African Americans

Activating the Past Andrew Apter, Lauren Derby, 2009-12-14 *Activating the Past* explores critical historical events and transformations associated with embodied memories in the Black Atlantic world The assembled case studies disclose hidden historical references to local and regional encounters with Atlantic modernity focusing on religious festivals that represent political and economic relationships in fetishized forms of power and value Although memories of the slave trade are rarely acknowledged in West Africa and the Americas they have retreated so to speak within ritual associations as restricted repressed even secret histories that are activated during public festivals and through different styles of spirit possession In West Africa our focus on selected port cities along the coast extends into the hinterlands where slave raiding occurred but is poorly documented and rarely acknowledged In the Caribbean regional contrasts between coastal and hinterland communities relate figures of the *j baro* the *indio* and the *caboclo* to their ritual representations in *Santer* a Vodou and *Candomblé* Highlighting the spatial association of memories with shrines and the ritual condensation of regional geographies we locate local spirits and domestic terrains within co extensive Atlantic horizons The volume brings together leading scholars of the African Diaspora who not only explore these ritual archives for significant echoes of the past but also illuminate a subaltern historiography embedded within Atlantic cultural systems

Fleshing Out America Carolyn Sorisio, 2002 Can we work through the imaginative space of literature to combat the divisive nature of the politics of the body That is the central question asked of the writings Carolyn Sorisio investigates in *Fleshing Out America* The first half of the nineteenth century ushered in an era of powerful scientific and quasi scientific disciplines that assumed innate differences between the types of humankind Some proponents of slavery and Indian Removal as well as opponents of women's rights supplanted the Declaration of Independence's higher law of inborn equality with a new set of laws proclaiming the physical inferiority of women Negroes and Aborigines *Fleshing Out America* explores the representation of the body in the work of

seven authors all of whom were involved with their era's reform movements Lydia Maria Child Frances E W Harper Ralph Waldo Emerson Margaret Fuller Walt Whitman Harriet Jacobs and Martin R Delany For such American writers who connected the individual body symbolically with the body politic the new science was fraught with possibility and peril Covering topics from representation spectatorship and essentialism to difference power and authority Carolyn Sorisio places these writers works in historical context and in relation to contemporary theories of corporeality She shows how these authors struggled in diverse and divergent ways to flesh out America to define even defend the nation's body in a tumultuous period Drawing on Euro and African American authors of both genders who are notable for their aesthetic and political differences *Fleshing Out America* demonstrates the surprisingly diverse literary conversation taking place as American authors attempted to reshape the politics of the body which shaped the politics of the time

The Complete Idiot's Guide to African American History Melba J. Duncan, 2003-01-28 Although the first black slaves arrived in Jamestown Virginia in 1619 our knowledge of African American history is often limited to lessons in films *The Complete Idiot's Guide to African American History* reveals a full portrait of black life including familiar figures such as Harriet Tubman W E B DuBois and Martin Luther King Jr
