Stories about Italian cuisine Maurizio Drago, 2023-10-27 Italian cuisine is rich, varied and full of original inventions, the historical divisions and the peculiarities of territorial values fed over time, outlining scenarios of habits, passions, adaptations and particular conditions different from one place to another but always with the same objective to give better satisfaction to the palate, combining what earth can offer with what the culinary art can elaborate. Today is called typical regional cuisine with the addition of some specifications such as poor. The essence of authentic Italian cuisine is precisely this: a world that contains within itself a thousand facets, countless products which are envied by all and above all, simplicity which reminds us of our ancestors and our history. Typical Italian cuisine evokes well-being and its success is due to the quality of the gastronomy, the simplicity and the love of the preparation
