Karen Bromley, Marcia Modlo, 2024-12-31 This resource is for grades 2-3 and aligns to the International Reading Association IRA and National Council of Teachers of English NCTE Standard 1.3.6 and 12.A. A graphic organizer is a visual way to represent knowledge in a pattern using labels. Organizing or arranging important aspects of a concept or topic is a critical step in the processes of reading, writing, and thinking a step that educators used to assume students did in their heads. Now we know that helping students develop and/or use graphic organizers greatly improves reading comprehension as well as analytical thinking and writing skills. *Graphic Organizers Simplified* is a four-book supplemental series that provides teachers with ready-to-use materials to help students learn how to create and use graphic organizers. Each lesson consists of three parts: a story, article, or poem written and illustrated by nationally recognized contributors; a graphic organizer to study complete or create work sheets that include comprehension questions, guided activities for interpreting data, and opportunity to apply and write about what has been learned. Selections in each book represent a variety of fiction and nonfiction genres including poetry, journal entries, humor, biography, history, science, nature, study, sports, fantasy, and more. Each was hand-picked as appropriate for the independent and instructional reading levels for the specified grades.
