Founders, Keepers Richard Hagberg, Tien Tzu, 2025-06-17 Based on decades of empirical research and data Founders Keepers gives founders a practical roadmap for navigating the inevitable challenges that come with startup growth It s a brutal paradox the same founder attributes required to put a startup in motion will invariably blow it up The difference between success and failure lies in the personal journey that every founder must pursue to avoid their own worst impulses Steeped in nearly forty years of research in leadership psychology Founders Keepers begins with the same personality assessment Rich Hagberg a psychologist and executive management coach gives his clients Hagberg and Tien Tzu founder and CEO of Zuora help founders build a Swiss Army knife of practical tools that will give them a much better chance of making it to the next level of success A guide for founders investors and academics alike the result of a decade long collaboration between a successful CEO and Silicon Valley s CEO Whisperer offers readers insights into The differentiators between successful and unsuccessful founders The three pillars of leadership that every founder needs to be successful The essential skills founders need to master to be successful over the long haul An examination of the common personality traits that lead founders to make fatally flawed decisions What makes founders tick including the default tendencies and leadership styles that often undermine their success How founders frustrate their investors partners and employees Founders may not

be able to account for all the complexities of their companies but they can account for themselves It s a difficult but unavoidable truth to grow your startup you have to grow as a person And that s where Founders Keepers comes in

Selling Sustainability Short? Janina Grabs,2020-05-14 Can private standards bring about more sustainable production practices This question is of interest to conscientious consumers academics studying the effectiveness of private regulation and corporate social responsibility practitioners alike Grabs provides an answer by combining an impact evaluation of 1 900 farmers with rich qualitative evidence from the coffee sectors of Honduras Colombia and Costa Rica Identifying an institutional design dilemma that private sustainability standards encounter as they scale up this book shows how this dilemma plays out in the coffee industry It highlights how the erosion of price premiums and the adaptation to buyers preferences have curtailed standards effectiveness in promoting sustainable practices that create economic opportunity costs for farmers such as agroforestry or agroecology It also provides a voice for coffee producers and value chain members to explain why the current system is failing in its mission to provide environmental social and economic co benefits and what changes are necessary to do better
