Forces of nature

1 Hurricane Charley Hits Hard

Hurricane Charley started as a small storm over the eastern Caribbean Sea on August 9, 2004. Two days later it struck the island of Jamaica and destroyed some parts of the island. By August 13, it had reached Port Charlotte, Florida where it did some of its worst damage. Most of its destruction was caused by its very strong winds, which reached more than 240 kilometres per hour, and not by heavy rainfall. By the time it travelled north and reached Cape Cod, Massachusetts on August 15, it had destroyed 14 billion US dollars worth of property and caused 15 deaths.

3 Earthquake Brings Tragedy to Haiti

On January 12, 2010, a very big earthquake hit the island of Haiti in the Caribbean. It's almost impossible to imagine the number of people who died, were injured or lost their homes. According to official estimates, over 220,000 people died and over 300,000 people were reported injured. Some of the deaths were caused by a tsunami in the Petit Paradis area of the island. Other tsunamis were reported but they did not cause any loss of life. The loss of property was also shocking. It is estimated that almost 100,000 houses were destroyed and about 200,000 were damaged leaving hundreds of thousands of people homeless.

2 Tsunami Strikes Indian Ocean

In December 2004, a very powerful earthquake, with a magnitude of 9.0 on the Richter scale, struck near the west coast of the Indonesian island of Sumatra. Within hours a tsunami formed. It hit the coastline of 11 Indian Ocean countries. Countless people were carried out to sea; they had no chance against the huge waves. Many others lost their lives in their homes, on the beaches or wherever they happened to be. Thousands of homes and other buildings were destroyed by heavy floods all around the Indian Ocean, from Africa to Thailand.

4 The Mumbai Floods of 2005

July 26, 2005 is the day when everything stopped in the Indian city of Mumbai because of flash flooding. The water levels rose so quickly in just a few hours that thousands of people were stuck on the roads. Thousands of schoolchildren were stranded by the flood and were not able to get home to their families for over 24 hours. Many people on the coast died in the disaster and many more lost their homes. All ground floor flats were underwater; the people lost everything. The floods were caused by the biggest rainfall recorded in many years. Over 65 inches of rain fell in 12 hours. The heavy floods caused a huge loss of about 100 million US dollars for Mumbai and its residents.
