Building the Foundation: Whole Numbers in the Primary Grades Maria G. Bartolini Bussi, Xu Hua Sun, 2018-03-29 This twenty third ICMI Study addresses for the first time mathematics teaching and learning in the primary school and pre school

setting while also taking international perspectives socio cultural diversity and institutional constraints into account One of the main challenges of designing the first ICMI primary school study of this kind is the complex nature of mathematics at the early level Accordingly a focus area that is central to the discussion was chosen together with a number of related questions The broad area of Whole Number Arithmetic WNA including operations and relations and arithmetic word problems forms the core content of all primary mathematics curricula The study of this core content area is often regarded as foundational for later mathematics learning However the principles and main goals of instruction on the foundational concepts and skills in WNA are far from universally agreed upon and practice varies substantially from country to country As such this study presents a meta level analysis and synthesis of what is currently known about WNA providing a useful base from which to gauge gaps and shortcomings as well as an opportunity to learn from the practices of different countries and contexts

Educational Assessment Robert J. Wright, 2008 *Educational Tests and Measurements in the Age of Accountability* is a core text for use in a first level graduate course in educational measurement and testing In addition to covering the topics traditionally found in core textbooks for this course this text also provides coverage of contemporary topics including national testing programs international achievement comparisons the value added assessment of schools and teachers and the public policy debate on selective admissions vs affirmative minority enrollment

Assessment in Perspective Clare Landrigan, Tammy Mulligan, 2013 *Assessment* is an integral part of instruction For the past decade the focus on assessment particularly via high stakes mandated tests has shifted away from the classroom and left teachers feeling like they are drowning in data *Assessment* is and needs to be again much more than a number *Assessment in Perspective* is about moving beyond the numbers and using assessment to find the stories they tell This book helps teachers sort through the myriad of available assessments and use each to understand different facets of their readers It discusses how to use a range of assessment types from reading conference notes and student work to running records and state tests together to uncover the strengths and weaknesses of a reader The authors share a framework for thinking about the purpose method and types of different assessments They also address the questions they ask when choosing or analyzing assessments What type of tool do we need diagnostic formative or summative formal or informal quantitative or qualitative How do we use multiple assessments together to provide an in depth picture of a reader When and how are we giving the assessment Do we want to be able to compare our readers to a standard score or do we need to diagnose a reader's needs Which area of reading does this tool assess How can we use the information from assessments to inform our instruction What information does a particular assessment tell us and what doesn't it tell us What additional information do we need about a reader to understand his or her learning needs The book emphasizes the importance of triangulating data by using varied sources both formal and informal and across multiple intervals It explains the power of looking at different types of assessments side by side with displays to find patterns or inconsistencies What's more students are included as valuable sources of data Letting students in

on the process of assessment is key to helping them set goals monitor their own progress and celebrate growth When assessment is viewed in this way instruction can meet high standards and still be developmentally appropriate
