New Directions in Assessing Historical Thinking
Kadriye Ercikan, Peter Seixas, 2015-02-20 New technologies have radically transformed our relationship to information in general and to little bits of information in particular The assessment of history learning which for a century has valued those little bits as the centerpiece of its practice now faces not only an unprecedented glut but a disconnect with what is valued in history education More complex processes historical thinking historical consciousness or historical sense making demand more complex assessments At the same time advances in scholarship on assessment open up new possibilities For this volume Kadriye Ercikan and Peter Seixas have assembled an international array of experts who have collectively moved the fields of history education and assessment forward Their various approaches negotiate the sometimes conflicting demands of theoretical sophistication empirically demonstrated validity and practical efficiency Key issues include articulating the cognitive goals of history education the relationship between content and procedural knowledge the impact of students language literacy on history assessments and methods of validation in both large scale and classroom assessments New Directions in Assessing Historical Thinking is a critical research oriented resource that will advance the conceptualization design and validation of the next generation of history assessments

Hater John Semley, 2018-10-23 A timely manifesto urging us to think critically form opinions and then argue them with gusto Hater begins from a simple premise that it s good to hate things Not people or groups or benign belief systems but things More to the point it s good to hate the things everyone seems to like Scan the click baiting headlines of your favorite news or pop culture website and you re likely to find that just about everything is supposedly what we need right now We are the victims of an unbridled unearned optimism And our world demands pessimism It s vital to be contrarian now as they say more than ever Because ours is an age of calcified consensus And we should all hate that In this scathing and funny rebuke of the status quo journalist John Semley illustrates that looking for and identifying nonsense isn t just a useful exercise for society it s also a lot of fun But Hater doesn t just skewer terrible TV shows and hit songs at its core it shows us how to meaningfully talk about and engage with culture and the world Ultimately Hater is what we actually need right now

Education Is Not an App Jonathan A. Poritz,Jonathan Rees,2016-08-12 Whilst much has been written about the doors that technology can open for students less has been said about its impact on teachers and professors Although technology undoubtedly brings with it huge opportunities within higher education there is also the fear that it will have a negative effect both on faculty and on teaching standards *Education Is Not an App* offers a bold and provocative analysis of the economic context within which educational technology is being implemented not least the financial problems currently facing higher education institutions around the world The book emphasizes the issue of control as being a key factor in whether educational technology is used for good purposes or bad purposes arguing that technology has great potential if placed in caring hands Whilst it is a guide to the newest developments in education technology it is also a book for those faculty technology professionals and higher education policy makers who want to understand the economic and pedagogical impact of technology on professors and students It advocates a path into the future based on faculty autonomy shared governance and concentration on the university s traditional role of promoting the common good Offering the first critical in depth assessment of the political economy of education technology this book will serve as an invaluable guide to concerned faculty as well as to anyone with an interest in the future of higher education

I test di accesso ai master. Manuale di preparazione. Informazioni sui principali master in Italia, in Europa e negli Usa Francesca Desiderio,Carlo Tabacchi,2013

East Asians in the League of Nations Christopher R. Hughes,Hatsue Shinohara,2023-01-07 This book looks at East Asian actors in the League of Nations to explore a pivotal moment in the early stage of the development of global international relations It breaks new ground by drawing on extensive sources in East Asian languages to show how actors from the region played significant roles in shaping the emerging norms and practices that underpin the international system The chapters cover cases from the three East Asian member states namely China Japan and Siam Thailand to address topics that involve the intersection of disciplinary fields such as law and warfare sovereignty and international organization

and public health and international co operation The research draws on new material that will be of interest to academic researchers and is presented in a style suitable for teaching at undergraduate and graduate levels especially for courses that strive to achieve a global outlook and the decolonization of the curriculum **49 Myths about China** Marte Kjær

Galtung, Stig Stenslie, 2014-11-13 Communism is dead in China China Inc is buying up the world China has the United States over a barrel The Chinese are just copycats China is an environmental baddie China is colonizing Africa Mao was a monster The end of the Communist regime is near The 21st century belongs to China Or does it Marte Kjær and Stig Stenslie highlight 49 prevalent myths about China's past present and future and weigh their truth or fiction Leading an enlightening and entertaining tour the authors debunk widespread knowledge about Chinese culture society politics and economy In some cases Chinese themselves encourage mistaken impressions But many of these myths are really about how we Westerners see ourselves inasmuch as China or the Chinese people are depicted as what we are not Western perceptions of the empire in the East have for centuries oscillated between sinophilia and sinophobia influenced by historical changes in the West as much as by events in China This timely and provocative book offers an engaging and compelling window on a rising power we often misunderstand Fantastic Failures Luke Reynolds, 2018-09-11

Even the most well known people have struggled to succeed Find out what they learned and how they turned their failures into triumphs with this engaging and youthful guide on how to succeed long term There is a lot of pressure in today's society to succeed but failing is a part of learning how to be a successful person In his teaching career Luke Reynolds saw the stress and anxiety his students suffered over grades fitting in and getting things right the first time Fantastic Failures helps students learn that their mistakes and failures do not define their whole lives but help them grow into their potential Kids will love learning about some of the well known people who failed before succeeding and will come to understand that failure is a large component of success With stories from people like J K Rowling Albert Einstein Rosa Parks Sonia Sotomayor Vincent Van Gogh Julia Child Steven Spielberg and Betsy Johnson each profile proves that the greatest mistakes and flops can turn into something amazing Intermixed throughout the fun profiles Reynolds spotlights great inventors and scientists who discovered and created some of the most important medicines devices and concepts of all time including lifesaving vaccines and medicines that were stumbled upon by mistake
