**Radiation Oncology Study Guide** Ravi A. Chandra, Celine B. Ord, Shushan Rana, Eric K. Hansen, Charles R. Thomas, Jr., 2020-11-16 Now in its second edition, this popular text remains a comprehensive study and review aid for the radiation oncology trainee and practicing radiation oncologist. The updated *Radiation Oncology Study Guide 2e* maintains its robust Q & A format and has been comprehensively updated to include the latest staging information and treatment methods. Answer rationales have been modified to a more readable, high-yield bulleted format. Each chapter covers a major disease site and is divided into two main parts: Questions and Answers, and Rationale. Questions review the scope of clinical practice, spanning from initial presentation to complications of treatment. General content and work-up questions emphasize pearls of epidemiology, anatomy, pathology, clinical presentation, and staging. Treatment content questions not only review evidence-based data guiding treatment recommendations but also practical aspects of radiation treatment planning, pertinent radiobiology and physics, and complications of treatment. This book is an ideal resource for physicians in training to prepare for initial written and oral exams, and physicians in practice to maintain their skills and prepare for maintenance of certification. Longitudinal and written exams.

**A Guide to the Formulation of Plans and Goals in Occupational Therapy** Sue Parkinson, Rob Brooks, 2020-11-29 This practical guide for occupational therapists introduces a tried and tested method for moving from assessment to intervention by formulating plans and measurable goals using the influential Model of Human Occupation. MOHO Section 1 introduces the concept of formulation, where it comes from, what it involves, why it is important, and how assessment information can be guided by theoretical frameworks and organised into a flowing narrative. Section 2 provides specific instructions for constructing occupational formulations using the Model of Human Occupation. In addition, a radically new way for creating aspirational goals is introduced, based on a simple acronym which will enable occupational therapists to measure sustained changes rather than single actions. Section 3 presents 20 example occupational formulations and goals from a wide range of mental health, physical health, and learning disability settings, as well as a prison service and services for homeless people and asylum seekers. Designed for practising occupational therapists and occupational students, this is an essential introduction for all those who are looking for an effective way to formulate plans and goals based on the Model of Human Occupation.
