With more people getting cancer every year, the big question must be: How can we prevent this epidemic? Cancer 101: Solutions to a Preventable Epidemic offers solid evidence that many cancers are preventable since their causes lie with the contamination of our bodies by pollution from the air we breathe, the products we use, the water we drink and the food we eat. positive solutions based approach to this unwanted disease Its pages are filled with practical advice and success stories that will inspire you to act to protect your family your neighbors your fellow workers and future generations Each solution is laid out on two pages with websites for follow up It includes solutions for individuals parents youth action groups healthcare agencies cities labor businesses governments and the world as a whole It provides clear information about ways to prevent cancer and should eliminate forever the mistaken belief that we don't know how to stop this terrible epidemic Cancer 101 Solutions to a Preventable Epidemic will appeal to anyone whose life has been touched by cancer and everyone who wants to stop it     *ACI Manual of Concrete Practice* American Concrete Institute, 1991     The Ohio Teacher , 1918
