State Civil Society Relations In Syria:

State-Civil Society Relations in Syria René Spitz, 2014-12-17 The European Union's EU good governance policies consider civil society an actor promoting development as well as political accountability of governments thus contributing to the democratisation of political systems By means of its European Neighbourhood Policy ENP the EU promotes good governance in its relations and cooperation with neighbouring countries to the East and the South including Syria The cooperation in the domain of good governance has not been successful in the southern neighbouring countries although some governments have allowed civil society to become more active Indeed authoritarianism prevailed in the whole Arab region until recently This study argues that the EU's good governance policy is based on questionable assumptions with respect to the nature of civil society as well as the willingness of state and civil society to cooperate Syria as an extreme case of authoritarianism is taken as an example The connotation attached by the EU to civil society in Syria is normative and overlooks its complexity and the character of its relations with the state

Citizens, Civil Society, and Activism under the EPRDF Regime in Ethiopia Camille Louise Pellerin, Logan Cochrane, 2023-07-15 In 2014 15 the Ethiopian government together with many academics and observers was surprised by the outbreak of anti government protests as large scale public contestation of the Ethiopian People's Revolutionary Democratic Front EPRDF had been largely absent in the regime's history The dominant narrative about the EPRDF regime was that it was a top down government using authoritarian methods to ensure the population abided by its visions and directives and describing its role in paternalistic ways such as being the protector and guardian of the people Changing this

narrative Citizens Civil Society and Activism under the EPRDF Regime in Ethiopia considers how citizens and civil society expressed their interests and exerted their agency in an authoritarian setting Focusing on the EPRDF regime over a period of three decades up to 2019 the book explores civic activism in Ethiopia presenting diverse examples of how citizens have reshaped the country Challenging state centric readings of state society relations under EPRDF governance this collection provides a counternarrative that emphasizes the role and agency of citizens and civil society The contributing authors draw on a heuristic analytical framework that examines different types of interactions between civil society and state actors co optation co operation coexistence and contestation and captures the ways in which civil society actors make their voices heard At a time when authoritarian forms of governance are increasingly prevalent across the world this critically important collection offers insight into how citizens claim their agency and challenge state power in apparently top down contexts

Civil Society in the Global South Palash Kamruzzaman, 2018-12-07 In recent years civil society has been seen as a key route for democracy promotion and solving development problems in low income countries However the very concept of civil society is deeply rooted in European traditions and values In pursuing civil society reform in non Western countries many scholars along with well meaning international agencies and donor organisations fail to account for non Western values and historical experiences Civil Society in the Global South seeks to redress this balance by offering diverse accounts of civil society from the global South authored by scholars and researchers who are reflecting on their observations of civil society in their own countries The countries studied in the volume range from across Africa Latin America Asia and the Middle East to give a rich account of how countries from the global south conceptualise and construct civil society The book demonstrates how local conditions are often unsuited to the ideal type of civil society as delineated in Western values for instance in cases where numerous political racial and ethnic sub groups are fighting for autonomy By disentangling local contexts of countries from across the global South this book demonstrates that it is important to view civil society through the lens of local conditions rather than viewing it as something that needs to be discovered or manufactured in non Western societies Civil Society in the Global South will be particularly useful to high level students and scholars within development studies sociology anthropology social policy politics international relations and

Gani,Raymond Hinnebusch,2022-03-17 This volume covers the middle time period of the Syrian uprising roughly from 2012 when Syria's peaceful protest began to mutate into a violent insurgency and civil war until roughly 2018 when the conflict took on features of a frozen conflict The middle period was important as one of key junctures or turning points when the struggle could have reached rather different outcomes Non violent protest failed to drive democratization and turned into violent insurrection but revolution from below also failed as did regime counter insurgency leaving protracted civil war the default outcome Second the consequences of civil war became evident with six themes failing statehood coexisted with regime resilience rebel governance emerged as a viable challenge to the regime social forces were sharply polarized external actors exacerbated internal divisions a predatory war economy emerged and intense violence led to massive displacement of the population Taking an innovative and interdisciplinary approach that seeks to capture the full complexity of the phenomenon this book contributes significantly to our understanding of the Syrian conflict therefore it will be of interest to academics students journalists and policy makers interested in the Syrian civil war *Social Movements and Civil War* Donatella della Porta,Teije Hidde Donker,Bogumila Hall,Emin Poljarevic,Daniel P. Ritter,2017-07-20 This book investigates the origins of civil wars which emerge from failed attempts at democratization The main aim of this volume is to develop a theoretical explanation of the conditions under which and the mechanisms through which social movements struggles for democracy end up in civil war While the empirical evidence suggests that this is not a rare phenomenon the literatures on social movements democratization and civil wars have grown apart from each other At the theoretical level Social Movements and Civil War bridges insights in the three fields looking in particular at explanations of the radicalization of social movements the failure of democratization processes and the onset of civil war In doing this it builds upon the relational approach developed in contentious politics with the aim of singling out robust causal mechanisms At the empirical level the research provides in depth descriptions of four cases of trajectory from social movements for democratization into civil wars

in Syria Libya Yemen and the former Yugoslavia Conditions such as the double weakness of civil society and the state the presence of entrepreneurs of violence as well as normative and material resources for violence ethnic and tribal divisions domestic and international military interventions are considered as influencing the chains of actors choices rather than as structural determinants This book will be of great interest to students of civil wars political violence social movements democratization and IR in general *The Greater Middle East in Global Politics* Mehdi Parvizi Amineh, 2007 This anthology unites in one volume two studies of the Greater Middle East in global politics each conceptual and empirical First it is a historical comparative study of politics and societies in selected Greater Middle Eastern countries Second it is an empirical case study of states and societies of the Greater Middle East in global politics *The ^AOxford Handbook of Politics in Muslim Societies* Melani Cammett, Pauline Jones, 2022-02-22 The Oxford Handbook of Politics in Muslim Societies examines a wide range of topics concerning regimes and regime change electoral politics political attitudes and behavior beyond voting social mobilization economic performance and development outcomes and social welfare and governance The Handbook shifts focus away from the Arab world as the barometer of politics in the Muslim world recognizing that the Islamic world spans several regions including Africa Southeast Asia South Asia and Central Asia This expanded geography enables a thorough investigation of which relationships if any hold across Muslim majority states in different regions of the world

Arab Spring-Arab Fall Ayfer Erdogan, 2021-04-21 The popular protests in early 2011 were once seen as a turning point in the history of the Arab world raising hopes for democracy freedom and justice in the Middle East A decade after the uprisings these hopes are largely dashed in each country swept by popular protests with the exception of Tunisia Tunisia became the only democracy in the entire region while Egypt saw its first freely elected president and government thrown out by the army in a bloody coup which resulted in a regime that is no less authoritarian than Mubarak s This book provides a detailed analysis of the political economic and constitutional developments in Tunisia and Egypt In the light of the existing literature on comparative democratization the author explores why Egypt s path to democratization was eroded by several transitional actors while Tunisian political elite managed to move the country towards democracy The book centers its focus on the role of the political agents in designing the transition and explores the transitional period with respect to the interactions among the political elite and their cost benefit assumptions ideological interests as well as their commitment to democratic processes *Cuba Represent!* Sujatha Fernandes, 2006-10-25 An ethnographic consideration of why the Cuban government has allowed criticism of its policies to be expressed in Cuban film visual art and music over the past fifteen years

Rethinking Statehood in the Middle East and North Africa Abel Polese, Ruth Hanau Santini, 2020-05-21 Alternative forms of government and statehood exist in the Middle East and North African regions The chapters in this volume demonstrate this and explore the notion of power from a non statist perspective highlighting the limits of states and their governance Using empirical evidence from Syria Libya Lebanon Tunisia Iraq Yemen and Mali the authors explore non standard cases

where power may be retained by a state but must be shared with a number of local actors resulting in limited statehood and hybrid governance which leads to competition and sharing of symbolic and political power within a state This book is intended to prompt a critical reflection on the meaning of governance It will illuminate informal structures which deserve attention when studying governance and power dynamics within a state or a region This book was originally published as a special issue of Small Wars Insurgencies **Tulsa Journal of Comparative & International Law** ,2005
