Total Loss Farm A Year In The Life:

Total Loss Farm Raymond Mungo, 1970 In this memoir of the late 1960s back to the earth movement Mungo takes us into the cultural tsunami of a failed radical politics as it broke on the shoals of a drug fueled personal freedom and washed inland across the farmlands of Vermont leaving a trail of damage and redemption in its wake My Generation John Downton Hazlett, 1998 John Hazlett's engaging study of writers from the 1960s demonstrates the ways in which the idea of the generation has affected autobiographical writing in this century Autobiographers from the sixties claim to speak on behalf of all members of their generation However each writer presents a unique political and personal agenda **Going Up the Country** Yvonne Daley, 2018-06-05 Going Up the Country is part oral history part nostalgia tinged narrative and part clear eyed analysis of the multifaceted phenomena collectively referred to as the counterculture movement in Vermont This is the story of how young migrants largely from the cities and suburbs of New York and Massachusetts turned their backs on the establishment of the 1950s and moved to the backwoods of rural Vermont spawning a revolution in lifestyle politics sexuality and business practices that would have a profound impact on both the state and the nation The movement brought hippies back to the landers political radicals sexual libertines and utopians to a previously conservative state and led us to today's farm to table way of life environmental consciousness and progressive politics as championed by Bernie Sanders

At Home in Nature Rebecca Kneale Gould, 2005 Gould's attention to the ironies and ambivalences that abound in the practice of homesteading provides fresh and insightful perspective Beth Blissman Oberlin College This luminously written ethnography of the worlds that homesteaders make significantly broadens our understanding of modern American religion In richly textured descriptions of the everyday lives and work of the homesteaders with whom she lived Gould helps us understand how the tasks of clearing land making bread and building a garden wall were ways of taking on the most urgent issues of meaning and ethics Robert A Orsi Harvard University This is a fascinating authoritative and accessible look at one of America's most important subcultures If you ever get around to building that cabin in the woods or especially if you don't you'll want this volume on the bookshelf Bill McKibben author of Wandering Home A Long Walk Across America's Most Hopeful Landscape Rebecca Gould's compelling book on American homesteading brings the study of the religion nature connection in the U.S. to a new place Catherine L Albanese author of Nature Religion in America From the Algonkian Indians to the New Age Gould provides brand new data and sheds new interpretive light on familiar figures and movements At Home in Nature is a model of how to seamlessly blend ethnography and history Bron Taylor University of Florida editor of the Encyclopedia of Religion and Nature *Ideology and Rhetoric* Bożenna Chylińska, 2009-01-14 The discovery of America and its further development into a modern state and a nation are the clear instance of how ideology and rhetoric are entwined and how they can encompass widely disparate viewpoints The essays collected in this book address the topical issues of modern American Studies cultural difference and otherness gender race and ethnicity class and power They represent new

texts and contexts approached through the revision reevaluation and reconfiguration of canons thus accommodating the expectations of the heterodox audience Femininity reconsidered an ideology of passing away in contemporary world of technical development race captured within the framework of identity and gender the rhetoric of blackness approached through racial exploitation American conquest ideology revealed in a mission of Manifest Destiny the 20th century assimilation rhetoric in the relations between Native Americans and the US federal government the conservative ideology and apologetic rhetoric of the Antebellum South the critique of the 21st century American legal system the evolution of the presidential rhetoric which today addresses a large heterogeneous audience all these topics impose a transnational interpretation of American culture which developed as a result of the cross cultural transformation of European culture cultures moulded on American soil to finally become a unique reformulation of the very idea of America itself **The 60s**

Communes Timothy Miller, 2015-02-01 The greatest wave of communal living in American history crested in the tumultuous 1960s era including the early 1970s To the fascination and amusement of more decorous citizens hundreds of thousands of mostly young dreamers set out to build a new culture apart from the established society Widely believed by the larger public to be sinks of drug ridden sexual immorality the communes both intrigued and repelled the American people The intentional communities of the 1960s era were far more diverse than the stereotype of the hippie commune would suggest A great many of them were religious in basis stressing spiritual seeking and disciplined lifestyles Others were founded on secular visions of a better society Hundreds of them became so stable that they survive today This book surveys the broad sweep of this great social yearning from the first portents of a new type of communitarianism in the early 1960s through the waning of the movement in the mid 1970s Based on more than five hundred interviews conducted for the 60s Communes Project among other sources it preserves a colorful and vigorous episode in American history The book includes an extensive directory of active and non active communes complete with dates of origin and dissolution **Annual Report of Commissioner of**

Insurance and Banking Tennessee. Dept. of Insurance and Banking. Division of Insurance, 1928 **Major Problems in American History Since 1945** Robert Griffith, Paula Baker, 2007 This text introduces students to both primary sources and analytical essays on important topics in U S history The book asks students to evaluate primary sources test the interpretations and draw their own conclusions **The End of Culture** Kingsley Widmer, 1975 These linked essays concern both the ominous failings and the proper libertarian purposes of contemporary American culture Presenting recent cultural expression as part of a larger dialectic the argument turns about conflicts between processed and rebellious culture between the anti sensibility of technocracy and other institutional domination and the insufficient sensibility of preservative humanistic intelligence and art Pursuing the politics of culture this aesthetic sociology examines such issues as the effects of technological communications structural censorship the waste ethos and some liberal ideologies A group of essays analyzes the contradictory aesthetics and ethics of recent movements of cultural rebellion Other essays examine representative

cultural inadequacies including some fashionable modes of literature sociology and higher education Libertarian social cultural critics including Paul Goodman and Herbert Marcuse are sympathetically criticized Through a number of essays a contentiously libertarian view of our cultural possibilities is sketched Originally published in 1975 **Statistics of Income** ,1980 The Weekly Underwriter Alasco Delancey Brigham, Henry Rogers Hayden, 1900 **Annual Report of the Department of Agriculture for the Year Ending ...** New York (State).
