The Report: South Africa 2014 Oxford Business Group, 2014-12-08. Indeed, since the end of apartheid in 1994, South Africa has become a major diplomatic player both on the African continent as well as further afield. Despite the size of South Africa's economy, the country currently faces a number of major economic challenges. As of the end of July 2014, the unemployment rate was at 25.5% according to data from Statistics South Africa, which was among the highest in the world. While the government's long-term development plans are generally highly regarded, delivery and execution has occasionally been problematic. While there are major hurdles that must be cleared, given the country's strong institutions and the rapid pace of economic expansion over the past two decades, South Africa should be able to look forward to 20 more years of peace and steady, sustained economic growth.

The Report: Morocco 2013,
The Report: Dubai 2015 Oxford Business Group, 2011-01-12. Already a regional and global centre for business and finance, Dubai's reputation has been bolstered by the MSCI's decision to upgrade the UAE from frontier to emerging market status in 2014, while the emirate's successful Expo 2020 bid is expected to generate myriad opportunities for private investors across a range of sectors. Construction is thriving once again, driven in large part by strong retail sector growth with various projects, including plans for the world's largest mall, indicating that the sector will maintain its position as the emirate's biggest GDP contributor moving forward. The transport and logistics framework is set for major expansion in the coming years, as well, further cementing the emirate's status as a leading transport and logistics hub, not just regionally but globally too. The continued development of Dubai's retail and hospitality offerings alongside the upgrades to its airports should help to ensure robust growth in visitor numbers from both the region and further afield.
