Modern Day Slavery and Orphanage Tourism Joseph M Cheer,Leigh Mathews,Kathryn E van Doore,Karen Flanagan,2019-11-25 While appealing to

the desire of tourists and volunteers to do good while travelling underlining orphanage tourism is the fact that the vast majority of children over 80% in orphanages and allied care institutions are not orphans. Instead children are often placed in institutions due to poverty and hardship and as victims of human trafficking. The first of its kind, this book highlights exploratory research that examines the links between modern slavery practices and orphanage tourism. **Kenya Gazette**, 1974-04-19. Making Hong Kong Pui-yin Ho, 2018-09-28. This insightful book provides a comprehensive survey of urban development in Hong Kong since 1841. Pui-yin Ho explores the ways in which the social, economic, and political environments of different eras have influenced the city's development. From colonial governance, wartime experiences, high density development, and adjustments before and after 1997 through contemporary challenges, this book explores forward-looking ideas that urban planning can offer to lead the city in the future. Evaluating the relationship between town planning and social change, this book looks at how a local Hong Kong identity emerged in the face of conflict and compromise between Chinese and European cultures. In doing so, it brings a fresh perspective to urban research, providing historical context and direction for the future development of the city. Hong Kong's urban development experience offers not only a model for other Chinese cities but also a better understanding of Asian cities more broadly. Urban studies scholars will find this an exemplary case study of a developing urban landscape. Town planners and architects will also benefit from reading this comprehensive book as it shows how Hong Kong can be taken to the next stage of urban development and modernisation. *Aid State* Jake Johnston, 2024-01-30. Haiti's state is near collapse; armed groups have overrun the country; many government officials have fled after the 2021 assassination of President Moïse, and not a single elected leader holds office. Refugees desperately set out on boats to reach the US and Latin America, and the economy reels from the after-effects of disasters, both man-made and natural, that destroyed much of Haiti's infrastructure and institutions. How did a nation founded on liberation, a people that successfully revolted against their colonizers and enslavers, come to such a precipice? In *Aid State*, Jake Johnston, a researcher and writer at the Center for Economic and Policy Research in Washington DC, reveals how long-standing US and European capitalist goals ensnared and re-enslaved Haiti under the guise of helping it. To the global West, Haiti has always been a place where labor is cheap, politicians are compliant, and profits are to be made. Over the course of nearly 100 years, the US has sought to control Haiti and its people with occupying police, military, and euphemistically called peacekeeping forces, as well as hand-picked leaders.
