Tourism Pat Grade 12 2015:

Tourism Syed Abdul Rehman Khan, Zhang Yu, 2021-10-06 Tourism was booming until 2019 when the COVID 19 pandemic hit. Since then tourism and related industries have suffered from negative economic impacts. This book examines current challenges and opportunities in the tourism industry using case studies from different parts of the world. It also examines the challenges and obstacles faced by the tourism sector due to lack of environmental policies, high crime rates and poverty.

Constructions of Self and Other in Yoga, Travel, and Tourism Lori G. Beaman, Sonia Sikka, 2016-08-01 This volume considers the phenomenon of yoga travel as an instance of a broader genre of spiritual travel involving journeys to places elsewhere which are imagined to offer the possibility of profound personal transformation. These imaginings are tied up in a continued exoticization of the East but they are not limited to that. Contributors identify various themes such as authenticity, suffering, space, material markers and the idea of the spiritual, tracing how these ideas manifest in conceptions and fetishizations of elsewhere. To deepen its analysis of this phenomenon, the book incorporates a wide range of disciplines including architecture, sociology, anthropology, philosophy, women's studies, religious studies and history. While the book's primary focus is yoga and yoga travel, contributors offer up an array of other case studies. Chapters delve into the complex questions of agency and authenticity that accompany the concept of spiritual travel and ideas of elsewhere. **Tourist**

Destinations Douglas G. Pearce, 2020-11-23 Destinations are a central feature of tourism and the focus of much tourism research. Destinations have been studied from diverse perspectives using multiple concepts and a range of approaches. As a result, destination research today has become increasingly fragmented as studies have become more specialized. There is a need for a more integrated approach, one which systematically draws together these different research threads to provide a comprehensive and coherent picture and a fuller understanding of destinations, their structure and how they function. This book provides such a synthesis by critically reviewing a wide range of international research and incorporating in one volume many different facets of destinations from studies which have appeared in related but often divergent literatures. Conceptual and methodological issues are illustrated with empirical examples from Europe, North and South America, Asia and Oceania.

Office of Publications, 1965 Writing Travel John Zilcosky, 2008-11-13 Interest in travel writing has grown rapidly within the disciplines of postcolonial and cultural studies, however, recent scholarship has failed to place travel writing within the larger literary tradition. *Writing Travel* assembles a superb collection of essays that demonstrate how travel attempts to reconfigure the world and in so doing to become a metaphor for imagination, subjectivity and representation itself. Examining

a broad range of texts and travellers from across the world the contributors discuss canonical authors such as Homer Goethe and Baudelaire alongside lesser known writers such as Theodor Herzl Hans Erich Nossack and William Gibson This theoretically rich volume draws connections between travel and narrative and provides powerful insights into the relationship between travel and the spoken act of storytelling as well as the more ambivalent act of story writing An engaging collection of essays by first rate scholars Writing Travel is an illuminating exploration of the history of travel writing its influence on other literary genres and the origins of narrative

Jakle, Keith A. Sculle, 2008-01-01 *Motoring* unmasks the forces that shape the American driving experience commercial aesthetic cultural mechanical as it takes a timely look back at our historically unconditional love of motor travel Focusing on recreational travel between 1900 and 1960 John A Jakle and Keith A Sculle cover dozens of topics related to drivers cars and highways and explain how they all converge to uphold that illusory notion of release and rejuvenation we call the open road Jakle and Sculle have collaborated on five previous books on the history culture and landscape of the American road Here with an emphasis on the driver s perspective they discuss garages and gas stations roadside tourist attractions freeways and toll roads truck stops bus travel the rise of the convenience store and much more All the while the authors make us think about aspects of driving that are often taken for granted how for instance the many lodging and food options along our highways reinforce the connection between driving and freedom and how by enabling greater speeds highway engineers helped to stoke motorists blessed fantasy of flight Although driving originally celebrated freedom and touted a common experience it has increasingly become a highly regulated isolated activity The motive behind America s first embrace of the automobile individual prerogative still substantially obscures this reality Americans did not have the automobile imposed on them say the authors Jakle and Sculle ask why some of the early prophetic warnings about our car culture went unheeded and why the arguments of its promoters resonated so persuasively Today the automobile is implicated in any number of environmental even social problems As the wisdom of our dependence on automobile travel has come into serious question reassessment of how we first became that way is more important than ever **The Holiday Makers** Richard K.

Popp, 2012-05-16 In mid twentieth century America mass tourism became emblematic of the expanding horizons associated with an affluent industrial society Nowhere was the image of leisurely travel more visible than in the parade of glossy articles and advertisements that beckoned readers from the pages of popular magazines In Richard K Popp s *The Holiday Makers* the magazine industry serves as a window into postwar media and consumer society showing how the dynamics of market research and commercial print culture helped shape ideas about place mobility and leisure Magazine publishers saw travel content as a way to connect audiences to a booming ad sector while middlebrow editors believed sightseeing travel was a means of fostering a classless society at home and harmony abroad Expanding transportation networks and free time lay at the heart of this idealized vision Holiday magazine heralded nothing less than the dawn of a new era calling it the age of Mobile Man Man gifted for the first time in history with leisure and the means to enjoy distance on a global scale For their part advertisers understood that selling tourism meant turning dreams into action as ad executive David Ogilvy put it Doing so involved everything from countering ugly stereotypes to tapping into desires for authentic places and self actualization Though tourism was publicly touted in egalitarian terms publishers and advertisers privately came to see it as an easy way to segment the elite free spenders from the penny pinching masses Just as importantly marketers identified correlations between an interest in travel and other consumer behavior Ultimately Popp contends the selling of tourism in postwar

America played an early integral role in the shift toward lifestyle marketing an experiential service economy and contributed to escalating levels of social inequality

Rewriting the North Chloe Ashbridge, 2023-05-15 This book shows how twenty first century writing about Northern England imagines alternative democratic futures for the region and the English nation signalling the growing awareness of England as a distinct and variegated political formation In 2016 the Brexit vote intensified ongoing constitutional tensions throughout the UK which have been developing since the devolution of Scotland Wales and Northern Ireland in 1997 At the same time British devolution developed a distinctively cultural registration as a surrogate for parliamentary representation and an attempt to disrupt the status of London as Britain's cultural epicentre *Rewriting the North* shifts this debate in a new direction examining Northern literary preoccupation with devolution's constitutional implications Through close readings of six contemporary authors Sunjeev Sahota Sarah Hall Anthony Cartwright Adam Thorpe Fiona Mozley and Sarah Moss this book argues that literary engagement with the North emphasises regional devolution's limited constitutional charge calling instead for an urgent abandonment of the British centralised state form
