*Renewing Cities* Ross J. Gittell,2014-07-14 The cities of Lowell and New Bedford in Massachusetts Jamestown in New York and McKeesport in Pennsylvania have all undergone years of adversity and decline their economic bases having been

badly damaged by structural changes in the national economy particularly in the manufacturing sector In situations like these can local development efforts make a difference Ross Gittel answers in the affirmative This interdisciplinary work focuses on comparative case studies of the four cities The book reveals how public private and community based local economic development initiatives affect local economic performance what works and what does not work City leaders and institutions can help reorganize and reshuffle local resources with results that include increased investment greater effort by local individuals and institutions more cooperation among different development interests and improvement in city economic positioning relative to the regional economy and local development cycles Gittel emphasizes the possibility of shifting from a zero sum game attracting jobs from elsewhere toward the goal of converting underutilized local resources to higher value uses through alternative forms of economic and political organization Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Whale-watching James Higham,Lars Bejder,Rob Williams,2014-03-27 Within little more than a generation whale watching has been subject to global industrial development It has been portrayed by destinations and business operators and advocated by environmental groups as a sustainable activity and an alternative to whaling However in recent years the sustainability of these activities has increasingly been questioned as research shows that repeated disturbance by boat traffic can severely disrupt critical behaviours of cetaceans in the wild Bringing together contributions by international experts this volume addresses complex issues associated with commercial whale watching sustainable development and conservation of the global marine environment It highlights widely expressed concerns for the failure of policy planning and management and pinpoints both long standing and emerging barriers to sustainable practice Featuring numerous case studies the book provides critical insights into the diverse socio cultural political economic and ecological contexts of this global industry highlighting the challenges and opportunities that arise along the pathways to sustainability
