Tourisme Et Innovation:

Tourisme et innovation France. Ministère délégué au tourisme, France. Conseil national du tourisme. Section des questions économiques, 2005 Pourquoi trouve-t-on difficilement des laboratoires de recherche dans l'hôtellerie ou la distribution touristique Existe-t-il au sein de l'industrie touristique une classe d'entrepreneurs schumpetériens visionnaires ou bien des dirigeants simplement cantonnés aux innovations incrementales L'innovation y est pourtant bien présente mais de façon plus chaotique que dans l'industrie manufacturière Il convient donc de repérer plus systématiquement les formes prises par l'innovation dans l'industrie touristique de spécifier les conditions de son éclosion et de sa diffusion enfin de clarifier les raisons qui s'opposent à une dynamique plus fructueuse d'une meilleure compétitivité touristique de nos firmes comme de nos territoires Fruit d'une collaboration entre un universitaire et un professeur reconnu du tourisme français s'appuyant parfois sur une approche conceptuelle et sur les enseignements tirés de nombreux entretiens avec des responsables de la profession ce rapport s'attache à formuler des pistes susceptibles de lever les obstacles réglementaires fiscaux ou financiers qui freinent l'innovation Il faut mobiliser les énergies stimuler la créativité et en fin de compte la progresser au sein du tourisme français

Tourisme et innovation Pierre Kalfon, 2009-05-15 La mondialisation des offres de l'e-commerce et le low cost ont bouleversé le secteur du tourisme Le voyageur accède en temps réel à une multitude d'informations et les professionnels rivalisent d'innovations pour satisfaire ce consommateur partagé entre individualisme et communautarisme entre affectif et contrainte budgétaire entre hedonisme et responsabilisation solidaire Pour développer une offre attractive et originale apprenez à décrypter les tendances qui bouleversent le monde du voyage

Tourisme Et Innovation - Comment Decrypter Les Tendances Qui, 2013

L'innovation dans le tourisme Brice Duthion, Cyrille Mandou, 2016-11-14 Un ouvrage pour appréhender tous les enjeux d'une filière en perpétuelle évolution avec en filigrane la digitalisation croissante de notre monde

TOURISME ET INNOVATION - La force creative des loisirs, 2020-06-07 Le tourisme est désormais traité par les politiques et les entrepreneurs comme une source intarissable de croissance économique et de profit Les auteurs analysent comment d'un besoin individuel on est passé à un besoin suscité cultivé démocratisé amenant nouveaux marchés et nouveaux profits pour un tourisme de niche ou de masse combinant loisirs éducation et santé L'innovation touristique est-elle vraiment en mesure de régler les problèmes liés à l'occupation de l'espace la gestion de l'environnement

Tourisme et Territoires Vincent Herbert, 2021-08-31 Dans un monde contemporain touristique l'innovation est devenue progressivement un élément central de la réflexion des professionnels et des spécialistes du tourisme L'approche pluridisciplinaire de cet ouvrage apporte un regard croisé sur l'innovation dans le domaine du tourisme et ses relations au territoire

Innovation dans le tourisme en milieu naturel Isabelle Falardeau (Géographe), 2022 L'innovation selon sa définition commune centre sur l'entreprise les sciences de la gestion et sur l'innovation technologique Godin 2004 est définie comme le processus allant de la création d'une idée nouvelle jusqu'à sa mise en œuvre et ce afin de créer de la valeur selon Edwards et al 2008 Kanter dans Hall et Williams 2020

Halager 2010a En tourisme l'innovation est souvent présente comme incontournable et mobilisée comme la clé de voute du développement touristique Dans les écrits scientifiques loin d'être reductible la seule idée de nouveauté l'innovation est un concept polysémique L'innovation slogan et l'innovation scientifiquement conceptualisée représentant les deux pôles d'un spectre qui comprend de nombreuses nuances et perspectives entre les deux Le tourisme en milieu naturel est un des champs d'application où l'étude de l'innovation est encore peu avancée malgré une croissance de l'intérêt des chercheurs envers ces thématiques voir Ryan 2002 Nybakk et Hansen 2008 Hjalager 2010b Matilainen et al 2011 Van Wijk et al 2015 Bell et Ruhanen 2016 Cette thèse propose une contribution pour en présenter les particularités L'objectif général de cette thèse est de mieux comprendre le concept d'innovation appliqué au tourisme en milieu naturel Afin de le réanalyser la thèse s'appuie sur une approche multidisciplinaire reliant la géographie touristique ancrage territorial du tourisme et les sciences de la gestion innovation développement touristique Sur le plan méthodologique la thèse repose sur une approche qualitative Une combinaison de méthodes a été utilisée incluant une collecte de données secondaires par le biais d'une revue de littérature la technique de groupe nominal TGN Ritchie 1985 et l'étude de cas multiples Yin 2003 Quelle est donc la portée et la limite de l'innovation dans le tourisme en milieu naturel Les résultats et constats principaux sont les suivants 1 Le fait que la recherche sur l'innovation en tourisme soit désormais dans une phase de foisonnement Falardeau et al 2018 témoigne de l'étendue de sa portée théorique Cependant l'innovation y apparaît presque toujours sous son jour le plus favorable illustration de l'internalisation d'une posture schumpétérienne d'après les travaux de Schumpeter 1935 pro innovation La thèse propose l'expression innovation sociale introduite pour nommer une conception large de l'innovation qui inclut la valeur économique de l'innovation dans le tourisme en milieu naturel et les voies alternatives que celle-ci peut emprunter 2 La thèse révèle que les conceptualisations dominantes tirées des écrits scientifiques ne suffisent pas à comprendre l'innovation dans le tourisme en milieu naturel sa spécificité y étant mal prise en compte La classification des attributs de l'innovation proposée dans l'article 2 Falardeau et al paraître laisse place à la nature et au territoire où la typologie généralement acceptée d'Hjalager 2010 ne le permet pas En revanche elle expose le poids limité qui lui est attribué comparativement à l'innovation associée à l'environnement social ou à l'organisation touristique elle-même 3 En ce qui concerne le rôle du territoire les résultats de la thèse indiquent que le territoire est présent travers des éléments physiques milieu naturel montagnes et des éléments humains ou socioculturels acteurs et enjeux des territoires Le territoire se révèle davantage travers la territorialité humaine il s'agit d'une innovation territorialisée ex ancrage social appartenance communautaire réseau Les éléments du territoire et de la nature n'occupent qu'une place de second plan tant dans l'innovation des organisations que dans la conceptualisation de l'innovation Abordant le rôle du territoire et de la nature dans l'innovation en tourisme la thèse contribue à une réinvention perpétuelle de l'innovation Gaglio et al 2019 et débute une réflexion poursuivre dans des recherches ultérieures

Ventes et productions touristiques - 2e année Armand Huet, Georges Gautheret, Charline Pischler, Marie-Dominique Sultan, 2003-03

Productivity in Tourism Peter Keller, Thomas Bieger, 2007 L'innovation dans l'industrie touristique Jean-Louis Caccomo, Bernardin Solonandrasana, 2006-09-01 Cette étude nous propose en premier lieu une réflexion sur l'offre touristique s'appuyant sur l'analyse du bien touristique et de la filière de production dont il est issu. En seconde partie elle s'intéresse à la dynamique du secteur et propose une analyse du processus d'apparition des nouveaux produits touristiques et de leur diffusion et d'apprécier l'impact sur les différents équilibres possibles *Examens environnementaux de l'OCDE : Islande 2014* OECD, 2015-02-12 Ce rapport est le troisième examen environnemental de l'Islande. Il value les progrès accomplis par l'Islande en termes de développement durable et de croissance verte avec un accent particulier sur les aspects environnementaux des politiques Flux touristique international et croissance économique de long terme Bruno Marques, 2012-01-12 Le tourisme international engendre une exportation particulière où seuls les clients se déplacent. La thèse étudie la problématique de la croissance tirée par le tourisme international en considérant cette spécificité de l'exportation touristique. La recherche s'attache à caractériser la dynamique de long terme entre la fréquentation touristique et le revenu par tête. Dans un cadre d'équilibre général différents contextes sont modélisés : économie unitaire sectorielle et bi-sectorielle mécanique de croissance par accumulation du capital physique privé et public et par innovation. L'effet de la fréquentation sur la croissance de long terme est doublement traité via un flux exogène suivant le Tourism Area Life Cycle selon Butler 1980 puis endogène au capital public et contraint par les capacités de réception. Chaque contexte dégage des résultats spécifiques. De la mécanique d'accumulation dans un cadre unitaire sectoriel émerge une équation explicative du revenu par tête liée directement à la fréquentation touristique. L'expérience de la Caraïbe valide la modélisation. L'économie bi-sectorielle démontre que les effets de spécialisation du flux touristique reposent sur les caractéristiques technologiques du bien consommé par les visiteurs. La croissance basée touristique par accumulation du capital public ou par innovation génère un effet d'échelle lié à la taille de l'espace économique. L'exercice du pouvoir de marché des destinations est une conséquence du Tourism Led Growth. Il doit être compensé par les progrès techniques ou les effets de productivité du travail du capital public. La contribution théorique de la thèse dépasse les résultats spécifiques de chaque modélisation. Elle qualifie la croissance tirée par le tourisme international de croissance endogène majoritairement caractérisée par un taux de croissance du revenu par tête qui diminue dans le temps *Examens de l'OCDE des politiques d'innovation : Suisse 2006* OECD, 2006-11-28 Cet ouvrage présente une évaluation détaillée du système d'innovation en Suisse et passe en revue le rôle des pouvoirs publics. Il propose des recommandations concrètes sur les améliorations des politiques d'innovation **Vocabulaire du discours touristique** Boualem Kadri, Marie Delaplace, Alain A. Grenier, Yann Roche, 2022-10-19 T00:00:00-04:00 Situé mi-chemin entre le dictionnaire encyclopédique et le dictionnaire usuel, le Vocabulaire du discours touristique investit les mots liés au savoir touristique ainsi que les différentes réalités qui y sont rattachées **Knowledge-Based Services, Internationalization and Regional Development** Peter Daniels, 2017-05-15 The acquisition and management of information is central to the operation and marketing of many service providing firms
