Toute La Fonction Communication:

Electronic Mass Media in Europe. Prospects and Developments E. de Bens, Manfred Knoche, 2012-12-06 L'histoire récente de l'audiovisuel en France ne peut être rapportée sans prendre en compte le changement de majorité politique de 1981. Sans doute les innovations techniques qui interpellent aujourd'hui les différents acteurs du champ audiovisuel étaient-elles déjà présentes ou en germe dès la fin de la dernière période. Mais la volonté de l'État de faire de la communication audiovisuelle une des clés de voûte d'une nouvelle politique culturelle et économique n'a cessé d'entretenir une tension toute particulière dans un paysage qui n'avait que fort peu évolué de 1974 à 1982 si l'on excepte la dissolution de l'ORTF et la création simultanée de sept sociétés chacune spécialisée dans une des fonctions de la radio-diffusion : production, programmation, diffusion. Les expériences de télédiffusion lancées en 1975 n'avaient pas été relayées par une politique plus ambitieuse. Seul le projet de satellite de télévision directe TDF 1 témoignait d'une vision plus prospective, plus aventureuse du développement de l'audiovisuel.

Maciocia La pratique de la médecine chinoise Giovanni Maciocia, Sylviane Burner, 2023-02-28 La nouvelle édition de *La pratique de la médecine chinoise* décrit les applications de la médecine chinoise traditionnelle. De la théorie au diagnostic en passant par les différents traitements possibles, c'est plus de 48 maladies qui sont étudiées dans le présent volume. S'appuyant sur les textes fondateurs chinois classiques et modernes, l'auteur expose avec le soin qui a fait sa réputation les concepts de la pratique de l'acupuncture et de la phytothérapie. Cette seconde édition pense comme une encyclopédie à l'enrichie de nombreuses illustrations et de 14 pathologies comme l'anxiété, l'hypertension ou encore la fibromyalgie. Faisant suite aux Principes fondamentaux de la médecine chinoise, cet ouvrage apportera aux étudiants et aux cliniciens des réponses concrètes à leurs questionnements. Chaque chapitre présente l'étiologie et la pathologie. Une section de traitements utilisant l'acupuncture et les plantes médicinales. Une liste de publications contemporaines chinoises. Les différences entre les diagnostics traditionnels chinois et occidentaux. De nombreuses illustrations, cas cliniques et résumés qui viennent clarifier et faciliter la lecture.

[Galileo in France](#) John Michael Lewis, 2006 Original Scholarly Monograph **Ne cherchez pas à comprendre, dansez seulement !** Mahesse Kolé, 2023-10-22 At a time when Côte d'Ivoire was experiencing a military political crisis and was split in two, 2002 the Coup D'état appeared as a real innovation in the Ivorian musical universe. It caused a sensation with cultural practices, a dress code, choreographic concepts and musical forms that were atypical of the time. While pre-existing genres such as Reggae, Hip Hop and Zouglou are positioned as committed music, Coup D'état on the other hand is in a completely different register, that of bringing joy, setting the mood, forgetting the sad reality of this difficult period. Nearly two decades later, the Coup D'état continues to enjoy great popularity among a community of fans who are sensitive to the ideology promoted and the social practices that derive from it. This study develops a reflection on the Coup D'état as a form of cultural mediation that consolidates a subcultural identity. It aims first to show the pictorial and imagined representations of the youth subculture through musical content, then to examine the actors' practices and interactions that lead to the development of the musical work and finally to demonstrate how the public and the producers, through the reception of the music and the identification with the Coup D'état, constitute a subculture. In short, the Coup D'état is a subcultural identity. It specifies a new relationship to politics, to social norms and above all a quest for pleasure, endangerment and amusement. Au moment où la Côte d'Ivoire connaît une crise militaro-politique et est coupée en deux, 2002 le Coup D'état apparaît comme une véritable innovation dans l'univers musical ivoirien. Il fait sensation avec des pratiques culturelles, un code vestimentaire, des concepts chorégraphiques et des formes musicales atypiques à l'époque. Pendant que les genres préexistants, notamment le Reggae, le Hip Hop et le Zouglou, se positionnent comme des musiques engagées, le Coup D'état quant à lui s'inscrit dans un tout autre registre, celui d'apporter de la joie, de mettre de l'ambiance, d'oublier la triste

ralité de cette période difficile. Près de deux décennies plus tard, le Coup d'état continue de jouir d'une grande popularité auprès d'une communauté de fans sensibles à l'idologie promue et aux pratiques sociales qui en découlent. Cette étude développe une réflexion sur le Coup d'état, une forme de médiation culturelle qui consolide une identité sous-culturelle. Elle veut d'abord montrer les représentations imaginées et imaginées de la sous-culture jeune, travers les contenus musicaux, ensuite examiner les acteurs, pratiques et interactions qui conduisent à la laboration de l'œuvre musicale et enfin à montrer en quoi le public et les producteurs travers la réception de la musique et l'identification au Coup d'état constituent une sous-culture. Enfin, définitivement, le Coup d'état constitue une identité sous-culturelle. Il précise un nouveau rapport au politique, aux normes sociales et surtout une quête vers le plaisir, l'enlèvement et l'amusement.
