Vihman,2019-10-24 This book explores the role of phonological templates in early language use from the perspective of usage based phonology and exemplar models and within the larger developmental framework of Dynamic Systems Theory After analysing children s first words and their adult targets Vihman sets out procedures for establishing the children s later prosodic structures and templates drawing on data from American and British English Estonian Finnish French Italian and Welsh she also provides briefer longitudinal accounts of template use in Arabic and Brazilian Portuguese The children are found to begin with simple word forms that match their selected adult targets this is followed by the production of more challenging words adapted to fit the child s existing patterns Early accuracy is replaced by later recourse to an inner model a template of a favoured word shape The book also examines the timing fading quantification and function of child phonological templates In addition two chapters focus on the use of templates in adult language in the core grammar and in the more creative morphology of colloquial short forms and hypocoristics in French and Estonian and of English rhyming compounds The idea of templates is traced back to its origins in Prosodic Morphology but its uses are most in evidence in the informal settings of adult language at play Throughout the volume the discussion returns to the issues of emergent systematicity the roles of articulatory and memory challenges for children and the similarities and differences in the function of templates for adults as compared with children

**Tracing the Domestic Pig** Goran Kušec, Ivona Djurkin Kušec, 2024-07-10 The appearance of the domestic pig today is shaped mainly by the economic expectations of us humans Today s pig has superior reproductive fattening and carcass traits compared to its ancient ancestors This could not be achieved without the highly effective support of scientific research aimed at revealing the genetic basis underlying the important economic traits of pigs and the involvement of novel technologies in phenotyping these animals both in vivo and post mortem Yet the research is spreading beyond the biological issues connected to the production of pigs and their products The latest developments in computer science and informatics technology enable us to collect and store information from all stages in the production of food leading back to its origin Questions about the breed the way the pigs were raised how were they managed and how they were processed into a wide palette of products can be answered by the use of methodologies developed by data scientists and those from the fields of different omics All this information can be passed along the chain to consumers in a repeatable manner The producers can use these data to manage such complex issues as meat or product quality And this closes the circle Tracing the domestic pig is an attempt to present the current knowledge about this valuable animal its origin composition and the food that it gives us and to predict or foresee what can happen to this species in the time to come

**Testing Commercial-off-the-Shelf Components and Systems** Sami Beydeda, Volker Gruhn, 2005-08-15 Industrial development of software systems needs to be guided by recognized engineering principles Commercial off the shelf COTS components enable the systematic and cost effective reuse of prefabricated tested parts a characteristic approach of mature engineering disciplines This reuse necessitates a thorough test of these components to make sure that each works as specified in a real context Beydeda and Gruhn invited leading researchers in the area of component testing to contribute to this monograph which covers all related aspects from testing components in a context independent manner through testing components in the context of a specific system to testing complete systems built from different components The authors take the viewpoints of both component developers and component users and their contributions encompass functional requirements such as correctness and functionality compliance as well as non functional requirements like performance and robustness Overall this monograph offers researchers graduate students and advanced professionals a unique and comprehensive overview of the state of the art in

testing COTS components and COTS based systems

**Making Art Together** Mark Cooper, Lisa Sjostrom, 2007-08-01 Artist Mark Cooper aims to change the way you think about making art with kids Working with schools around the country Cooper has brought together scores of teachers and hundreds of children to make remarkable collaborative art that has enlivened classrooms and public spaces and been displayed in the nation's most prestigious museums In this inspiring practical idea filled book Cooper shows how any teacher not just art teachers can imagine and execute similar projects in their own classrooms But more than that Cooper transforms our sense of possibilities arguing for a new view of art in schools Making Art Together is a book about art education structured around big ideas that adults can flourish in the role of Master Artist that the perspective of contemporary art offers liberating possibilities for rethinking art in schools that art can and should be about the larger world and thus naturally ties in to all areas of the curriculum Most of all Cooper shows us the power of collaboration From mammoth freestanding sculptures to billboards against violence to maps of the world the projects here are all planned designed and completed by children themselves The resulting artwork is complex and ambitious on a scale that would be out of reach for any individual child Working collaboratively using a distinctly democratic model kids actually think and work like adult artists throughout every stage of the project Together the sky's the limit the artistic and educational opportunities are boundless Making Art Together is a bold beautifully illustrated book that could at a time when art budgets are being slashed revitalize our sense of what art in schools can accomplish
