Stories for Every Classroom Beverly A. Brenna, 2015. Academic study of children's literature has explored various aspects of diversity; however, little research has examined Canadian books that portray characters with disabilities. This relevant and timely text addresses the significant dearth of research by exploring the treatment of disability in Canadian literature for young people. Engaging and highly accessible, this text will assist teachers, teacher educators, and teacher candidates in finding and using books about characters where disability is a part of their characterization, supporting the development of curricula that reflect critical literacy and social justice issues. *Stories for Every Classroom* explores the historical patterns and trends, theoretical frameworks, and critical literacy methods used to understand and teach children's literature and its portrayal of characters with disabilities. It provides educators with curriculum ideas and enriches the body of resources shared with children in K-12 settings for the purposes of developing imagination, empathy, and understanding of self and others. Featuring author portraits, comprehensive annotated bibliographies of contemporary Canadian children's books that depict characters with disabilities, and read-on bibliographies that provide connections with other books in the field, this unique text will be an invaluable resource for educators.

The Extra-Ordinary Girl Tina Belinda Benigno, 2025-07-18. Positioning the teen girl as a figure possessing exceptional power with the potential to instigate change, this book examines the extra-ordinary girl as she exists under neoliberalism today. Through a combination of textual and cultural analyses of figurations of girlhood in popular culture and qualitative research group interviews with teen girls, the author emphasizes the importance of listening to real teen girls whose perspectives and values might not match those attributed to dominant cultural models of girlhood. This book explores contemporary girl figures and figurations of girlhood on and off screen, highlighting how girls who are not in the public eye negotiate standards of exceptionality in relation to their own experiences of social power while also defining the importance of care and connection to their relationships and personal values. This book is a unique and comprehensive combination of methodological and conceptual approaches to cultural, historical, and sociological analyses while exploring questions of feminism and the speculative fiction genre. It will appeal to girlhood and feminist studies, film and media studies, child and youth studies, humanities, cultural studies, and social
