TV Guide ,2007 Terrorism TV Stacy Takacs,2012-04-30 The Fox TV series 24 might have been in production long before its premier just two months after 9 11 but its storyline and that of many other television programs has since become inextricably embedded in the nation s popular consciousness This book marks the first comprehensive survey and analysis of War on Terror themes in post 9 11 American television critiquing those shows that either blindly or intentionally supported the Bush administration s security policies Stacy Takacs focuses on the role of entertainment programming in building a national consensus favoring a War on Terror taking a close look at programs that comment both directly and allegorically on the post 9 11 world In show after show she chillingly illustrates how popular television helped organize public feelings of loss fear empathy and self love into narratives supportive of a controversial and unprecedented war Takacs examines a spectrum of program genres talk shows reality programs sitcoms police procedurals male melodramas war narratives to uncover the recurrent cultural themes that helped convince Americans to invade Afghanistan and Iraq and compromise their own civil liberties Spanning the past decade of the ongoing conflict she reviews not only key touchstones of post 9 11 popular culture such as 24 Rescue Me and Sleeper Cell but also less remarked upon but relevant series like JAG Off to War Six Feet Under and Jericho She also considers voices of dissent that have emerged through satirical offerings like The Daily Show and science fiction series such as Lost and Battlestar Galactica Takacs dissects how the War on Terror has been broadcast into our living rooms in programs that routinely offer simplistic answers to important questions Who exactly are we fighting Why do they hate us and she examines the climate of fear and paranoia they ve created Unlike cultural analyses that view the government s courting of Hollywood as a conspiracy to manipulate the masses her book considers how economic and industry considerations complicate state media relations throughout the era Terrorism TV offers fresh insight into how American television directly and indirectly reinforced the Bush administration s security agenda and argues for the continued importance of the medium as a tool of collective identity formation It is an essential guide to the televisual landscape of American consciousness in the first decade of the twenty first century Twenty-First Century Jihad Elisabeth Kendall,Ewan Stein,2015-06-04 The term jihad has come to be used as a byword for fanaticism and Islam s allegedly implacable hostility towards the West But like other religious and political concepts jihad has multiple resonances and associations its meaning shifting over time and from place to place Jihad has referred to movements of internal reform spiritual struggle and self defence as much as to holy war And among Muslim intellectuals the meaning and significance of jihad remain subject to debate and controversy With this in mind Twenty First Century Jihad examines the ways in which the concept of jihad has changed from its roots in the Quran to its usage in current debate This book explores familiar modern political angles and touches on far less commonly analysed instances of jihad incorporating issues of law society literature and military action As this key concept is ever more important for international politics and security studies Twenty First Century Jihad contains

De Keijzer,2007 Secrets of 24 uses this heart stopping adrenalin fuelled blockbuster series as a point of relevance to pursue big moral and political issues of importance for our time An analysis of the plotlines is accompanied by a collection of original interviews and commissioned essays from leading political figures cultural commentators celebrities and experts on technology security and terrorism with carefully selected and anthologised articles and essays This insightful book follows on from the successful Secrets of the Code CDS Books 9781593152734 and Secrets of the Widow's Son Sterling 9781402728198 by Dan Burstein both of which explain the fascinating ideas and historical truths behind Dan Brown's The Da Vinci Code and its soon to be released sequel *The Hollywood Reporter*,2008 **Arabs and Muslims in the Media** Evelyn Alsultany,2012-08-20 After 9/11 there was an increase in both the incidence of hate crimes and government policies

that targeted Arabs and Muslims and the proliferation of sympathetic portrayals of Arabs and Muslims in the U S media

Arabs and Muslims in the Media examines this paradox and investigates the increase of sympathetic images of the enemy during the War on Terror Evelyn Alsultany explains that a new standard in racial and cultural representations emerged out of the multicultural movement of the 1990s that involves balancing a negative representation with a positive one what she refers to as simplified complex representations This has meant that if the storyline of a TV drama or film represents an Arab or Muslim as a terrorist then the storyline also includes a positive representation of an Arab Muslim Arab American or Muslim American to offset the potential stereotype Analyzing how TV dramas such as West Wing The Practice 24 Threat Matrix The Agency Navy NCIS and Sleeper Cell news reporting and non profit advertising have represented Arabs Muslims Arab Americans and Muslim Americans during the War on Terror this book demonstrates how more diverse representations do not in themselves solve the problem of racial stereotyping and how even seemingly positive images can produce meanings that can justify exclusion and inequality *Broadcasting & Cable* ,2007 The Television Will be Revolutionized Amanda D. Lotz,2007-11 After occupying a central space in American living rooms for the past fifty years is television as we ve known it dead This work examines television at the turn of the twenty first century It takes us behind the screen to explore what is changing why it s changing and why these changes matter **F & S Index United States Annual** ,2006 1,000 Recordings to Hear Before You Die Tom Moon,2008-08-28 A guide to music provides recommendations on one thousand recordings that represent the best in such genres as classical jazz rock pop blues country folk musicals hip hop and opera with listening notes commentary and anecdotes about performers Reimagining the Promised Land Rodney Wallis,2020-09-17 While Israel has seemingly been a minor presence in Hollywood cinema Reimagining the Promised Land argues that there is a long history of Hollywood deploying images of Israel as a means of articulating an idealized notion of American national identity This argument is developed through readings of The Ten Commandments Cecil B DeMille 1956 Ben Hur A Tale of the Christ William Wyler 1959 Exodus Otto Preminger 1960 Cast a Giant Shadow Melville Shavelson 1966 Black Sunday John Frankenheimer 1977 The Delta Force Menahem Golan 1986 and Munich Steven Spielberg 2005 The mobilization of Israel that pervades this eclectic group of films effectively demonstrates one of the more surreptitious ways in which Hollywood has historically constructed and circulated dominant notions of American national identity Moreover in examining the most notable Hollywood representations of the Jewish state the book offers an informed historical overview of the cultural forces that have contributed to popular understandings within the United States of the state of Israel Israel s Arab neighbours and also the Arab Israeli conflict Shifting Landscapes Miyase Christensen,Nezih Erdoğan,2008 Continuity and change are the two major trends that mark European film and media vistas This book presents various accounts of filmic and televisual media text and form mediated politics media policy globalization diasporic media and multiculturalism **New York** ,2005 *Us versus Them, Second Edition* Douglas Little,2022-08-02 Acclaimed historian of
