SKU: SIM101

Big power, small package

Easy-to-use, highly accurate, rugged, and reliable the IM-100 manual total station is perfect for entry-level site layout and surveying. The IM-100 is built to be your hardest worker, made to withstand even the toughest conditions and providing up to 28 hours of battery life**.

Like all of our products, you can customize it to meet your needs and create your own workflows.

- Fast, accurate, and powerful EDM
- Reflectorless up to 800 meters
- Dual-axis compensation
- Waterproof IP66 rating
- Up to 28 hours in battery life**

High-end performance

Featuring a new top line EDM, the IM-100 is fast, accurate, and powerful. It has 1.5 mm / 2 ppm accuracy and is able to measure up to 5,000 meters to standard prisms, and in reflectorless mode measures up to 800 meters at an incredible 2.0 mm + 2 ppm accuracy.

Precise positioning

Dual-axis compensation ensures stable measurements even on rough terrain. The compensator automatically corrects both horizontal and vertical angles and allows for more accurate instrument setups and measurements.

Awange,2017-08-04 Indeed the most important part of engineering work and also of other scientific work is the determination of the method of attacking the problem whatever it may be whether an experimental investigation or a theoretical calculation It is by the choice of a suitable method of attack that intricate problems are reduced to simple phenomena and then easily solved Charles Proteus Steinmetz The structure of this book is to provide a sequence of theory workshops and practical field sessions that mimic a simple survey project designed for civil and mining engineers The format of the book is based on a number of years of experience gained in presenting the course at undergraduate and post graduate levels The course is designed to guide engineers through survey tasks that the engineering industry feels is necessary for them to have a demonstrated competency in surveying techniques data gathering and reduction and report presentation The course i s not designed to make engineers become surveyors It is designed to allow an appreciation of the civil and mine

engineering surveyor's job. There are many excellent text books available on the subject of engineering surveying but they address the surveyor not the engineer. Hopefully this book will distil many parts of the standard text book. A lot of the material presented is scattered through very disparate sources and has been gathered into this book to show what techniques lie behind a surveyor's repertoire of observational and computational skills and provide an understanding of the decisions made in terms of the presentation of results. The course has been designed to run over about 6 weeks of a semester providing a half unit load which complements a computer aided design CAD based design project.

Embracing the Song of Phrase: An Mental Symphony within **Total Station Sokkia Set Manual**

In a world used by displays and the ceaseless chatter of quick interaction, the melodic elegance and psychological symphony created by the written term often diminish into the background, eclipsed by the persistent noise and interruptions that permeate our lives. However, located within the pages of **Total Station Sokkia Set Manual** a stunning fictional treasure full of organic thoughts, lies an immersive symphony waiting to be embraced. Constructed by a wonderful composer of language, that charming masterpiece conducts visitors on an emotional trip, well unraveling the concealed tunes and profound impact resonating within each carefully constructed phrase. Within the depths of the poignant examination, we will explore the book is key harmonies, analyze its enthralling writing model, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
