Cases on Tour Guide Practices for Alternative Tourism Yildirim, Gulsun, Ozbek, Ozlem, Kilinc, Ceyhan Caglar, Tarinc, Abdullah, 2020-06-19

Tour guides, a highly responsible group of professionals who are in direct communication with tourists traveling around the world, have a great impact on the proper promotion of the culture of countries, global peace and tolerance. Additionally, they are also effective in the preservation of world natural heritage. Thus, the educational status of tour guides as well as the characteristics and ethical values that they should possess need to be examined on an international scale. In today's world, where tourism demand is directed towards all types of tourism practices, in special interest tourism should be customized in order to ensure the highest level of service quality and cultural appreciation. *Cases on Tour Guide Practices for Alternative Tourism* provides emerging research exploring the theoretical and practical aspects of the occupational issues that surround tour guides and their applications within international tourism. Featuring coverage on a broad range of topics such as cultural education, specialized learning and international business, this book is ideally designed for tour guides, travel agencies, tour managers, tour developers, heritage sites, museums, academicians, researchers, students, industry experts and hospitality professionals.

Tourism Development in Post-Soviet Nations Susan L. Slocum, Valeria Klitsounova, 2020-01-23 Former communist countries face unique issues in developing and marketing tourism businesses communities and attractions because of centralized policies that discouraged international influences While soviet economies relied on state policies to facilitate community development the success of capitalism lies in access to a variety of resources such as the environment fiscal services infrastructure and market knowledge at the local level Moreover communal societies potentially possess social capital that can provide unique economic development opportunities This book incorporates a regional perspective that widens the tourism development debate to include theoretical analyses applied research and case studies that document the broader successes and challenges that affect tourism stakeholders and addresses the necessary elements that facilitate a comprehensive tourism development strategy in emerging and transitioning former communist countries
