Bottleneckers William Mellor, Dick M. Carpenter II, 2016-12-13 Bottleneckers are a person who advocates for the creation or perpetuation of government regulation particularly an occupational license to restrict entry into his or her occupation thereby accruing an economic advantage without providing a benefit to consumers The Left Right and Center all hate them powerful special interests that use government power for their own private benefit In an era when the Left hates fat cats and

the Right despises crony capitalists now there is an artful and memorable one word pejorative they can both get behind

American Amnesia Helen E. Kriebel,2022-12-27 People are who they are because of what they have been through
where they came from who they learned from and all the things that have happened to them The same is true not just for
individuals but also for families communities and nations America too has its own unique character also formed by its
memories history things it has been through and what it has learned If people communities or even nations lose their
memory they lose their character That is why cultures throughout the world work at maintaining their identity and passing
traditions along to future generations But what if a nation purposely decides it no longer wants to remember its history What
if a country imposes amnesia on itself Helen Kriebel argues persuasively that this is precisely what has happened to America
It has lost the memory of its own founding principles and the sacrifices made over the past 250 years to preserve them The
nation is losing its character She writes that America cannot be preserved as the last best hope of Earth if its own people no
longer understand why that is true and are no longer willing to do what it takes to preserve it The duties of citizenship are
vitally important Kriebel writes but they are not complicated It is our duty as the owners to defend our freedom against all
threats and to pass it along to future generations undiminished Americans are failing in that duty but Kriebel says there is
still time to cure our national amnesia It begins with rebuilding our understanding of and commitment to those founding

principles regaining our national memory **Greetings from the Lincoln Highway** Brian Butko, 2019-05-31 The Lincoln Highway was the first continuous road to connect the coasts allowing newly motorized Americans to cross the country by car This book allows readers to travel across 100 years of the highway from New York City to San Francisco with stops at historic landmarks bridges taverns movie palaces diners gas stations ice cream stands tourist cabins and roadside attractions Color maps and stories of the highway take readers through 14 states with excerpts from memoirs and old postcards giving a feel for what early motoring was like the good the bad and the muddy The book is organized by state with narrative information on what the original Lincoln Highway crossed through There are historical tidbits and nostalgic details along with information on what remains This book is a useful treasure for travel planning and armchair reading Travel USA, 1948 *The United States Catalog* Mary Burnham, Carol Hurd, 1928 The Top 100 Ferguson, 2008-11 *Quality Assurance and Certification in Ecotourism* Rosemary Black, Alice Crabtree, 2007 Genuine ecotourism can have many positive impacts particularly the conservation of biodiversity and cultural heritage and the creation of economic opportunities for local communities While promoting these it aims to eliminate negative impacts such as environmental degradation cultural commoditisation and playground effects Unfortunately the concept is broadly misunderstood and its true definition is widely debated It is often used as a marketing tool with some operators taking advantage of the ecotourism label to attract more business while behaving in environmentally irresponsible ways This book considers the important topic of quality control and accreditation in ecotourism describing the mechanisms that can be implemented to ensure quality in all aspects of the industry namely protected areas businesses products and tour guides *Travel USA Bulletin* United States. National Park Service, 1948 **Doing the Town** Catherine Cocks, 2001-09-19 This fascinating cultural history studded with vivid details bringing the experience of Victorian era travel alive explores the beginnings of urban tourism and sets the phenomenon within a larger cultural transformation that encompassed fundamental changes in urban life and national identity
