Tour of Duty Constantine Nomikos Vaporis,2009-11-12 Alternate attendance sankin kotai was one of the central institutions of Edo period 1603 1868 Japan and one of the most unusual examples of a system of enforced elite mobility in world history It required the daimyo to divide their time between their domains and the city of Edo where they waited upon the Tokugawa shogun Based on a prodigious amount of research in both published and archival primary sources Tour of Duty renders alternate attendance as a lived experience for not only the daimyo but also the samurai retainers who accompanied them Beyond exploring the nature of travel to and from the capital as well as the period of enforced bachelorhood there Constantine Vaporis elucidates for the first time the significance of alternate attendance as an engine of cultural intellectual material and technological exchange Vaporis argues against the view that cultural change simply emanated from the center Edo and reveals more complex patterns of cultural circulation and production taking place between the domains and Edo and among distant parts of Japan What is generally known as Edo culture in fact incorporated elements from the localities In some cases Edo acted as a nexus for exchange at other times culture traveled from one area to another without passing through the capital As a result even those who did not directly participate in alternate attendance experienced a world much larger than their own Vaporis begins by detailing the nature of the trip to and from the capital for one particular large scale domain Tosa and its men and goes on to analyze the political and cultural meanings of the processions of the daimyo and their extensive entourages up and down the highways These parade like movements were replete with symbolic import for the nature of early modern governance Later chapters are concerned with the physical and social environment experienced by the daimyo s retainers in Edo they also address the question of who went to Edo and why the network of physical spaces in which the domainal samurai lived the issue of staffing political power and the daily lives and consumption habits of retainers Finally Vaporis examines retainers as carriers of culture both in a literal and a figurative sense In doing so he reveals the significance of travel for retainers and their identity as consumers and producers of culture thus proposing a multivalent model of cultural change

Tour of Duty Jan D. Hendrix,2012-06-01 When Mark an American soldier serving in

Germany in the early 1950s meets Lauren a young German girl their lives change forever But love is never easy and for these two it may well be impossible In a world still reeling from the horrors of war and genocide the budding love between a Jewish soldier and a German Catholic girl is controversial and dangerous It is a time in history that demands the same dedication and focus on duty as in the war years Both of the lovers are pressured from all sides and each feels the impossibility of their love but neither can deny or forget it Mark is faced with military duty a possible court martial and a threatening sociopath Lauren is expected to play the role of the dutiful German daughter who follows the path dictated by her father In addition to her obligations to her father she is expected to focus only on school work her church and her duty to country Their very different backgrounds stand as obstacles they can't disregard Neither is so naive as to ignore the considerable cultural and societal pressure they face But the heart does not always listen to logic and soon they are irresistibly drawn together come what may Despite all the many forces they face can they find the strength to stay together in a world that propels them apart
