Thanatourism and Cinematic Representations of Risk

Rodanthi Tzanelli, 2016-04-14 In today s world the need to eliminate natural and human made disasters has been at the forefront of national and international socio political agendas The management of risks such as terrorism labour strikes protests and environmental degradation has become pivotal for countries that depend on their economy s tourist sector Indeed there is fear that that the end of tourism might be nigh due to inadequate institutional foresight Yet in designing relevant policies to tackle this arts such as that of filmmaking have yet to receive due consideration This book adopts an unorthodox approach to debates about the end of tourism Through twenty first century cinematic narratives of symbolically interconnected risks it considers how art envisages the future of humanity s well being These risks include migration as an infectious disease alien incursions as racialized labour mobilities cyborg rebellion as the fear of post colonial otherness and zombie anthropophagy as the replacement of rooted identities by nomadic lifestyles Such filmic scenarios articulate the futuristic survival of community as the triumph of the technological human over otherness and provide a means to debate societal risks that weave identity politics into unequal mobilities This book will appeal to researchers and students interested in mobilities theory tourism and travel theory film studies and aesthetics globalisation studies race labour and migration

Meaningful Pasts

Russell Johnston, Michael Ripmeester, 2024-01-31 In Meaningful Pasts Russell Johnston and Michael Ripmeester explore two strands of identity making among residents of the Niagara region in Ontario Canada First they describe the region s official narratives most of which celebrate the achievements of white settlers with a mix of storytelling rituals and monuments Despite their presence in local lore and landmarks these official narratives did not resonate with the nearly one thousand residents who participated in five surveys conducted over eleven years Instead participants drew on contemporary people places and events Second the authors explore the emergence of Niagara s wine industry as a heritage narrative The book shares how the survey participants embraced the industry as a local identifier and indicates how the industry s efforts have rekindled the residents interest in agriculture as a significant element of regional heritage and local identities Revealing how

the profiles of local narratives and commemorations become entwined with social cultural economic and political power Meaningful Past illuminates the fact that local narratives retain their relevance only if residents find them meaningful in their day to day lives

The

Routledge Handbook of Events Stephen J. Page, Joanne Connell, 2014-10-14 The Routledge Handbook of Events explores and critically evaluates the debates and controversies associated with this rapidly expanding discipline. It brings together leading specialists from a range of disciplinary backgrounds and geographical regions to provide state-of-the-art theoretical reflection and empirical research on the evolution of the subject. It is the first major study to examine what events is as a discipline in the twenty-first century, its significance in contemporary society and growth as a mainstream subject area. The book is divided into five inter-related sections. Section one evaluates the evolution of events as a discipline and defines what events studies is. Section two critically reviews the relationship between events and other disciplines such as tourism and sport. Section three focuses on the management of events. Section four evaluates the impacts of events from varying political, social and environmental perspectives, and section five examines the future direction of growth in event-related education and research. It offers the reader a comprehensive synthesis of this field, conveying the latest thinking and research. The text will provide an invaluable resource for all those with an interest in Events Studies, encouraging dialogue across disciplinary boundaries and areas of study.

Feeling Like a State Davina Cooper, 2019-09-06 A transformative progressive politics requires the state's reimagining. But how should the state be reimagined and what can invigorate this process? In *Feeling Like a State* Davina Cooper explores the unexpected contribution a legal drama of withdrawal might make to conceptualizing a more socially just participative state. In recent years, as gay rights have expanded, some conservative Christians from charities to guesthouse owners and county clerks have denied people inclusion, goods and services because of their sexuality. In turn, liberal public bodies have withdrawn contracts, subsidies and career progression from withholding conservative Christians. Cooper takes up the discourses and practices expressed in this legal conflict to animate and support an account of the state as heterogeneous, plural and erotic. Arguing for the urgent need to put new imaginative forms into practice, Cooper examines how dissident and experimental institutional thinking materialize as people assert a democratic readiness to recraft the state.

Mapping Diaspora Patricia de Santana Pinho, 2018-10-26 Brazil, like some countries in Africa, has become a major destination for African American tourists seeking the cultural roots of the black Atlantic diaspora. Drawing on over a decade of ethnographic research as well as textual, visual and archival sources, Patricia de Santana Pinho investigates African American roots tourism, a complex, poignant kind of travel that provides profound personal and collective meaning for those searching for black identity and heritage. It also provides, as Pinho's interviews with Brazilian tour guides, state officials and Afro-Brazilian activists reveal, economic and political rewards that support a structured industry. Pinho traces the origins of roots tourism to the late 1970s when groups of black intellectuals, artists and activists found themselves drawn especially to Bahia, the state that in previous centuries had absorbed the largest number of enslaved Africans. African Americans have become frequent travelers across what Pinho calls the map of Africanness that connects diasporic communities and stimulates transnational solidarities while simultaneously exposing the unevenness of the black diaspora. Roots tourism, Pinho finds, is a fertile site to

examine the tensions between racial and national identities as well as the gendered dimensions of travel particularly when women are the major roots seekers Wallace's Year-book of Trotting and Pacing in ... John Hankins Wallace, 1906

laser beam machining wikipedia - Sep 08 2023

web laser beam machining lbm is a form of machining that uses heat directed from a laser beam this process uses thermal energy to remove material from metallic or nonmetallic surfaces the high frequency of monochromatic light will fall on the surface thus heating melting and vaporizing the material due to the impinge of photons see coulomb

laser beam machining an overview sciencedirect topics - Aug 07 2023

web laser beam machining laser beam machining lbm is one of the most popular non conventional machining processes used in the area of advanced machining from modern machining technology 2020 related terms electric discharge machining heat affected zone ultrasonics artificial intelligence material removal rate micro

a review of modeling and simulation of laser beam machining - Sep 27 2022

web oct 1 2014 laser beam machining lbm is a widely used thermal advance machining process capable of high accuracy machining of almost any material with complex geometries co 2 and nd yag lasers are mostly used for industrial purposes drilling cutting grooving turning and milling are the applications of lbm with different material

laser beam machining springerlink - Aug 27 2022

web jan 1 2013 laser beam machining is the machining processes involving a laser beam as a heat source it is a thermal process used to remove materials without mechanical engagement with workpiece material where the workpiece is heated to melting or boiling point and removed by melt ejection vaporization or ablation mechanisms

laser beam machining an overview sciencedirect topics - May 04 2023

web laser beam machining lbm is a thermal energy based advanced machining process in which the material is removed by i

melting ii vaporization and iii chemical degradation chemical bonds are broken which causes the materials to degrade from journal of materials processing technology 2008

laser beam machining definition construction working principle - Oct 29 2022

web mar 26 2022 so laser machining is a thermal material removal process that uses a coherent beam of light to machine the workpiece very precisely in the laser machining process mrr material removal rate depends on the wavelength used because it will decide the amount of energy impinged on it

laser beam machining springer - Apr 03 2023

web definition laser beam machining lbm is extremely useful for machining with high precision depending upon the feature size of the laser tool laser machining can be categorized into micromachining and macromachining

laser beam machining a review sciencedirect - Jun 05 2023

web may 1 2008 laser beam machining lbm is one of the most widely used thermal energy based non contact type advance machining process which can be applied for almost whole range of materials laser beam is focussed for melting and vaporizing the unwanted material from the parent material

laser beam machining springerlink - Nov 29 2022

web jan 1 2019 laser beams are highly directed coherent and monochromatic waves of electromagnetic radiation in the spectral range between 100 nm far uv up to some hundreds of micrometers far ir the term laser is an acronym for the physical effect light amplification by stimulated emission of radiation but is often also used to refer to the

laser beam machining springerlink - Jul 06 2023

web nov 29 2016 definition laser beam machining lbm is a nonconventional machining process which broadly refers to the process of material removal accomplished through the interactions between the laser and target materials the processes can include laser drilling cutting grooving writing scribing ablation welding cladding milling and so on

pdf laser beam machining a review semantic scholar - Apr 22 2022

web may 1 2008 laser laser beam machining is one of the nontraditional thermal energy based non contact type machining process where material removal takes place by melting and vaporization is used for almost expand

laser beam machining parts working application advantages - Oct 09 2023

web mar 10 2023 what is laser beam machining contents show laser beam machining is a non conventional machining process in which a laser is directed toward the workpiece for machining this process uses thermal energy to remove metal from metallic or nonmetallic surfaces the laser is electromagnetic radiation

pdf laser machining researchgate - Mar 02 2023

web oct 7 2020 laser beam machining lbm is one of the advanced non contact machining processes that employ

monochromatic light with high frequency for machining using thermal energy the highly energized

laser machining process an overview sciencedirect topics - Jul 26 2022

web laser beam machining is widely used for various material removal applications since it provides highly concentrated energy source to cut the materials in laser through cutting a kerf is created through relative motion between the laser beam and the workpiece surface while profiling 26
