Tourism British Columbia Annual Report British Columbia. Ministry of Tourism,1981 Hollywood North Mike Gasher,2002 British Columbia s billion dollar film industry trails behind only those of California and New York This book recounts the story of British Columbia s rapid rise from relative obscurity in the film world to its current status as Hollywood North Gasher positions the industry as a model for commercial film production in the twenty first century one strongly shaped by a perception of cinema as a medium not of culture but of regional industrial development He addresses the specific economic and geographic factors that contribute to the province s success such as the low Canadian dollar and BC s proximity to Los Angeles Hollywood North is an important book that brings into focus the tension between globalization and localization in the film industry **British Columbia Government Publications** ,1997 British Columbia Government Publications, Monthly Checklist British Columbia. Annual Report British Columbia. Ministry of Tourism and Provincial Secretary,1988 **Selling British Columbia** Michael Dawson,2007-10-01 Selling British Columbia is an entertaining examination of the development of the tourist industry in British Columbia between 1890 and 1970 Michael Dawson argues that in order to understand the roots of the fully fledged consumer culture that emerged in Canada after the Second World War it is necessary to understand the connections between the 1930s 1940s and the postwar era Cultural producers such as tourism promoters and the state infrastructure played important roles in fostering consumer demand particularly during the Depression the Second World War and throughout the postwar era Dawson draws upon promotional pamphlets newspapers advertisements and films as well as archival sources regarding government civic and international tourism organizations Central to his book is an examination of the representation of popular imagery and of how aboriginal and British cultures were commodified and marketed to potential tourists He also looks at the gendered aspect of these promotional campaigns particularly during the 1940s and challenges earlier interpretations regarding the relationship between tourism and nature in Canada Historians have tended to focus on either the first wave of consumerism from the 1880s to the 1920s or else on the era of economic expansion that followed World War Two As Dawson shows the 1930 45 period in particular was an important and dynamic one in the creation of Canadian and British Columbian consumer culture Michael Dawson s highly readable and engaging account of the development of the British Columbia tourist industry will be welcomed by British Columbian and Canadian historians as well as other scholars of tourism and consumerism

Beesley,2010 **The Practice of Sustainable Tourism** Michael Hughes,David Weaver,Christof Pforr,2015-06-19 Sustainable tourism is a widely used term that has accumulated considerable attention from researchers and policy makers over the past two decades However there is still an apparently wide gap between theory and practice in the area Recent scholarly research has tended to focus on niche areas of alternative tourism rather than address the broader issues and vagaries and paradoxes that appear to plague the broader notion of sustainable tourism As such there is a need for a new and pragmatic analysis of sustainable tourism as an overarching idea and how this manifests in practice The Practice of Sustainable Tourism fulfils this need by offering a fresh perspective on sustainable tourism as an umbrella concept with inherent tensions It presents a way of thinking about tourism based on the notion of finding common ground using the dialectic tradition of philosophy Dialectics focusses on resolving opposing viewpoints by recognising they have common elements that can be combined into a rational and practical solution over time As part of this approach the book examines the strongly apparent tensions within alternative tourism as well as the paradox of continuing growth and other mass tourism related issues It is divided into three parts Part I includes chapters discussing the general concept of sustainable tourism its history current status and possible futures Part II includes a range of destination case studies exploring how sustainable tourism has been applied and Part III includes perspectives from the tourism operator view Given the international content and challenging themes the book will be appealing internationally to students researchers and academics in the fields of tourism geography sustainability and social
