Tourism Memo For Pat 2:

White House Conference on Tourism United States. Congress. House. Committee on Public Works and Transportation. Subcommittee on Aviation,1993 **The Wearing of the Green** Mike Cronin,Daryl Adair,2004-11-23 The full history of St Patrick s day is captured here for the first time in The Wearing of the Green Illustrated with photos the book spans the medieval origins steeped in folklore and myth through its turbulent and troubled times when it acted as fuel for fierce political argument and tells the fascinating story of how the celebration of 17th March was transformed from a stuffy dinner for Ireland s elite to one of the world s most public festivals Looking at more general Irish traditions and Irish communities throughout the world Mike Cronin and Daryl Adair follow the history of this widely celebrated event examining how the day has been exploited both politically and commercially and they explore the shared heritage of the Irish through the development of this unique patriotic holiday Highly informative for students of history cultural studies and sociology and an absolute delight for anyone interested in the fascinating and unique culture of Ireland **The Travel and Tourism Index** ,1991 Revenue Management for Hospitality and Tourism Alan Fyall,Patrick Legohérel,Elizabeth Poutier,2013-05-31 Written by leading academic and industry experts actively engaged in revenue management research and teaching this is a new and original treatment of the whole field for students and professionals Touring Beyond the Nation: A Transnational Approach to European Tourism History Eric G.E. Zuelow,2016-12-05 When tourists travel they often seek the exotic The farther they venture the more unique the cultures they gaze upon the greater the prestige accrued cross cultural contact is commonplace Yet despite the obviously transnational character of the tourist experience national borders define existing studies of tourism Spanish French or German tourism is treated almost in isolation and there are only hints of a larger transnational impetus behind the creation of national tourism products This volume tells a different story Although modern tourism first evolved in Europe changes were never confined to national borders The Grand Tour the birthplace of modern tourism was consummately transnational in both its execution and its influence Although seaside resorts originated in Britain the aesthetic and scientific ideas that made beaches desirable emerged through conversation among Dutch painters English travellers and both British and Continental scientists and philosophers When travel was finally available to the masses Irish tourism advocates looked to England Continental Europe and America for ideas The Nazi leisure organization Strength through Joy KdF was based on an earlier Italian model the Dopolavoro World s Fair promoters raided previous fairs in other countries for ideas European wide demand and taste helped shape nudist practice in France and beyond At every turn practices and products developed because tourism lent itself to trans national discourse The contributors examine a wide range of topics that together make a powerful argument for the adoption of a new transnational model for understanding modern tourism An essential addition to the library of academics studying the history of tourism popular culture and leisure in Europe the book will also provide interest to scholars of transnational topics including Europeanization and globalization

Tourism in Northern Ireland and its economic impact and benefits Great Britain: Parliament: House of Commons: Northern Ireland Affairs Committee, 2007-03-15 The Committee's report examines the nature of tourism in Northern Ireland its impact on and importance for the overall economy and the effectiveness of measures taken by Government and other relevant agencies to develop promote and support the marketing of Northern Ireland as a tourist destination The Committee's recommendations are addressed to the Northern Ireland Office which took back responsibility for tourism in Northern Ireland when the power sharing executive was suspended in October 2002 but if a power sharing executive is re established then responsibility for tourism will revert to the restored Executive and accordingly responsibility for scrutiny of this policy area would revert to the Committees of a restored Assembly The Committee's report makes 27 recommendations to help Northern Ireland maximise its tourist potential and concludes that if government recognises the enormous economic impact of tourism and if private enterprise in co operation with statutory bodies can develop this recognition into a coherent strategy there is no reason why the success of tourism in the Republic of Ireland should not be replicated in Northern Ireland to the advantage of the whole island of Ireland and with Northern Ireland itself enjoying an equivalent status to Scotland and Wales as a UK tourist destination

Cruise Tourism in Polar Regions Michael Lück, Patrick Timothy Maher, Emma J. Stewart, 2010 Cruises are the primary form of tourism in the Polar Regions and cruise ship tourism in both the Arctic and Antarctic is expanding rapidly The industry has moved beyond its infancy and is now entering a maturing phase with increased numbers and types of vessels more demanding routes and more regular and predictable patterns of activity The increase in cruise activities and the associated risks of accidents as well as the potential and actual impacts of the large
