**Tripura (India). Finance Department**

## **Tourism Phase1 Memorandum 14:**

After the Projects Lawrence J. Vale, 2018-11-20 America is in the midst of a rental housing affordability crisis More than a quarter of those that rent their homes spend more than half of their income for housing even as city leaders across the United States have been busily dismantling the nation's urban public housing projects In After the Projects Lawrence Vale investigates the deeply rooted spatial politics of public housing development and redevelopment at a time when lower income Americans face a desperate struggle to find affordable rental housing in many cities Drawing on more than 200 interviews with public housing residents real estate developers and community leaders Vale analyzes the different ways in which four major American cities implemented the federal government's HOPE VI program for public housing transformation while also providing a national picture of this program Some cities attempted to minimize the presence of the poorest residents in their new mixed income communities but other cities tried to serve as many low income households as possible Through examining the social political and economic forces that underlie housing displacement Vale develops the novel concept of governance constellations He shows how the stars align differently in each city depending on community pressures that have evolved in response to each city's past struggles with urban renewal This allows disparate key players to gain prominence when implementing HOPE VI redevelopment A much needed comparative approach to the existing research on public housing After the Projects shines a light on the broad variety of attitudes towards public housing redevelopment in American cities and identifies ways to achieve more equitable processes and outcomes for low income Americans

achievement of home building which this book documents and celebrates for posterity      **The Report: Saudi Arabia 2020**

Oliver Cornock, Saudi Arabia's decision to weaken the link between hydrocarbons and economic growth and pursue a policy of diversification has seen projects across a range of sectors come to fruition in the last several years. While at present the twin crises presented by the Covid 19 pandemic and the unprecedented plunge in oil prices are causing significant short term uncertainty, the reforms that have been put in place in recent years should stand the Kingdom in good stead over the longer term.      *Nineteenth Century Short-title Catalogue: phase 1. 1816-1870 (50 v.)*, 1993      **Archive Wars** Rosie Bsheer, 2020-09-22. A study of the Saudi Arabian monarchy's efforts to construct and disseminate a historical narrative to legitimize its rule. The production of history is premised on the selective erasure of certain pasts and the artifacts that stand witness to them. From the elision of archival documents to the demolition of sacred and secular spaces, each act of destruction is also an act of state building. Following the 1991 Gulf War, political elites in Saudi Arabia pursued these dual projects of historical commemoration and state formation with greater fervor to enforce their postwar vision for state, nation, and economy. Seeing Islamist movements as the leading threat to state power, they sought to de-center religion from educational, cultural, and spatial policies. With this book, Rosie Bsheer explores the increasing secularization of the postwar Saudi state and how it manifested in assembling a national archive and reordering urban space in Riyadh and Mecca. The elites' project was rife with ironies: in Riyadh, they employed world-renowned experts to fashion an imagined history, while at the same time in Mecca, they were overseeing the obliteration of a thousand-year-old topography and its replacement with commercial megaprojects. *Archive Wars* shows how the Saudi state's response to the challenges of the Gulf War served to historicize a national space, territorialize a national history, and ultimately refract both through new modes of capital accumulation. Praise for *Archive Wars*: An instant classic. With incredible insight, creativity, and courage, Rosie Bsheer peels away the political and institutional barriers that have so long mystified others seeking to understand Saudi Arabia. Bsheer tells us remarkable new things about the exercise and meaning of power in today's Saudi Arabia. Toby Jones, Rutgers University, author of *Desert Kingdom: How Oil and Water Forged Modern Saudi Arabia*. There are now two distinct eras in the writing of Saudi Arabian history: before Rosie Bsheer's *Archive Wars* and after. Robert Vitalis, University of Pennsylvania, author of *Oilcraft*. *Archive Wars* explores with conceptual brilliance and historical aplomb the various forms of historical erasure central not just to the Kingdom of Saudi Arabia but to all modern states. In a finely grained analysis, Rosie Bsheer rethinks the significance of archives, historicism, capital accumulation, and the remaking of the built environment. A must read for all historians concerned with the materiality of modern state formation. Omnia El Shakry, University of California, Davis, author of *The Great Social Laboratory: Subjects of Knowledge in Colonial and Postcolonial Egypt*.      [Rise of the North East](#) Research and Information System for Developing Countries (RIS), 2022-10-31. This book gives a detailed assessment of the scope for strengthening economic capacities across sectors, ensuring economic prosperity through connectivity, and discusses the resource gaps. It

comprehensively captures the wide range of economic possibilities existing in the north eastern region of India in terms of sectors local resources and expertise Further the book identifies gaps in supply chains and host of other factors around limited economic capacities and continued connectivity deficiencies that hold the region back Key indicators like poverty and social sectors like health and education are presented in detail to cover the context in terms of the development parameters aligned with the SDGs The wide variation in state specific contexts has been captured based on full utilization of available data and information In this book India s north east comprising of eight states have been looked at from the perspectives of India s Act East policy development cooperation with the neighbouring countries promotion of trade including border trade connectivity and economic corridors infrastructure and industrialization In this direction it makes several recommendations on drivers of economic growth and enablers of social sector development
