Ramsey,2007-09 Connect History an innovative online assignment and assessment platform which combines a fully integrated eBook with powerful learning and teaching tools Tools that make assessment easier learning more engaging and studying more efficient For example within Connect History engaging interactivities such as Critical Missions immerse students in pivotal historical events ask them to explore these situations and then make recommendations based on their findings Connect History sharpens students analytical skills increases historical understanding and improves overall course success State High School Exit Exams ,2006 *Memoir of a Retired Teacher* Praxedes Solina Victoriano,2022-07-13 Memoir of a Retired Teacher By Praxedes Solina Victoriano Teacher Praxedes Solina Victoriano wrote Memoir of a Retired Teacher to reach the attention of parents school administrators and government authorities about the problems prevailing in US classrooms Praxedes hopes that if the above mentioned sectors work together teachers will be able to teach more effectively resulting in a higher quality of education especially in the public secondary schools The main purpose of writing this book is to help teachers maximize the learning process in their classrooms **Memoir of a Retired Teacher** Edes C. Solina,2011-09-07 In Memoir of a Retired Teacher author Edes Solina shares her concern that there is a real problem in education today American children are performing at levels significantly below the skill levels of many countries in mathematics and science exams College instructors are asking why such a large number of high school graduates are not prepared for college work in these and other subject areas The United States has the best quality of college or higher education in the whole world but the quality of education in high school is below acceptable levels for college entrance She believes the root cause of the substandard performance of American students is the serious disruption caused by discipline problems taking place in the classroom today Teachers need help in finding positive methods for turning the tide before its too late She believes that the schools need to allow the teachers to focus every minute of the class period on teaching and learning activities without the constant disruption from the rampant discipline problems plaguing their classrooms Memoir of a Retired Teacher is Solinas life story in three parts in the first part she looks back on the final days of her teaching career in the second part she remembers her teaching experiences and in the final part she recounts her lifes journey *Poverty and Discrimination* Kevin Lang,2011-02-11 Many ideas about poverty and discrimination are nothing more than politically driven assertions unsupported by evidence And even politically neutral studies that do try to assess evidence are often simply unreliable In Poverty and Discrimination economist Kevin Lang cuts through the vast literature on poverty and discrimination to determine what we actually know and how we know it Using rigorous statistical analysis and economic thinking to judge what the best research is and which theories match the evidence this book clears the ground for students social scientists and policymakers who want to understand and help reduce poverty and discrimination It evaluates how well antipoverty and antidiscrimination

policies and programs have worked and whether they have sometimes actually made the problems worse And it provides new insights about the causes of and possible solutions to poverty and discrimination The book begins by asking Who is poor and by giving a brief history of poverty and poverty policy in the United States in the twentieth century including the Welfare Reform Act of 1996 Among the topics covered are the changing definition of poverty the relation between economic growth and poverty and the effects of labor markets education family composition and concentrated poverty The book then evaluates the evidence on racial discrimination in areas such as education employment and criminal justice as well as sex discrimination in the labor market and assesses the effectiveness of antidiscrimination policies Throughout the book is grounded in the conviction that we must have much better empirical knowledge of poverty and discrimination if we hope to reduce them
